Deputy Clerk

## SUPERIOR COURT OF CALIFORNIA, COUNTY OF Sacramento

STREET ADDRESS: 720 9th Street

MAILING ADDRESS:

CITY AND ZIP CODE: Sacramento, CA 95814

BRANCH NAME: Gordon D. Schaber Sacramento County Courthouse

PLAINTIFF: [UNDER SEAL]

DEFENDANT: [UNDER SEAL]

## CONFIDENTIAL COVER SHEET—FALSE CLAIMS ACTION

CASE NUMBER:

34.2012.00127426

**INSTRUCTIONS:** This civil action is brought under the False Claims Act, Government Code section 12650 et seq. The documents filed in this case are under seal and are confidential pursuant to Government Code section 12652(c).

This Confidential Cover Sheet must be affixed to the caption page of the complaint and to any other paper filed in this case until the seal is lifted.

You should check with the court to determine whether papers filed in False Claims Act cases must be filed at a particular location.

Seal to expire on (date):

## UNLESS:

- (1) Motion to extend time is pending; or
- (2) Extended by court order

1. The document to which this cover sheet is affixed is:

- a. ☒ Complaint for damages for violation of the False Claims Act
- b. ☐ Civil Case Cover Sheet (form 982.2(b)(1))
- c. ☐ Motion for an extension of time to intervene
- d. ☐ Affidavit or other document in support of the motion for an extension of time
- e. ☐ Order extending time to intervene (specify date order expires):
- f. ☐ Other order (describe):
- g. ☐ Notice from the Attorney General of additional prosecuting authority that may have access to the file
- h. ☐ Other (describe):

2. This Confidential Cover Sheet and the attached document must each be separately file-stamped by the clerk of the court.

Date: July 13, 2012

1 **I. INTRODUCTION**

2 1. This *Qui Tam* lawsuit is brought to stop the rampant insurance fraud  
3 perpetrated by **pain management health clinics** in California. This fraud is  
4 achieved through the unlawful employment of “runners, cappers and steerers,” and  
5 a pattern and practice of overbilling, billing for services never rendered, ordering  
6 unnecessary treatments, tests, and evaluations, billing for medical services that are  
7 only superficially provided by untrained low-wage workers, and using unaffiliated  
8 physicians’ credentials to unlawfully order prescription drugs in the area of  
9 chronic pain management. The Defendants named herein are running a “medical  
10 billing mill.” By virtue of their unlawful scheme, Defendants, and their unnamed  
11 co-conspirators, have cheated the California Workers’ Compensation System,  
12 including the State Compensation Insurance Fund (“SCIF”), Medi-Cal, and private  
13 insurers out of hundreds of millions of dollars.

14 2. At the center of the scheme are seven pain management clinics (the  
15 “Clinics”) in Southern California, largely owned and controlled by Defendant  
16 Bahar Gharib-Danesh, D.C. Together, these Clinics see hundreds of patients per  
17 day under the guise of “pain management” diagnosis and treatment. The Clinics  
18 obtain these patients through unlawful referrals from attorneys in exchange for a  
19 guaranteed diagnosis.

20 3. The Clinics have instituted and engaged in a pattern and practice of  
21 ordering dozens of tests, treatments, and medications for **all** patients, regardless of  
22 injury or proper medical diagnosis. Many of these procedures are never  
23 performed, and patients often never receive the medications for which the insurers  
24 pay. This scheme subjects the Clinics’ patients to dangerous medical treatments  
25 and medications that are unnecessary, unproven, and conducted solely for billing  
26 purposes. Each stage of the patients’ care is designed to fraudulently maximize  
27 billing while providing no actual medical care or benefit. The following language  
28

1 from a June 22, 2012 email from Defendant Gharib-Danesh to employees at the  
2 Clinics exemplifies this fraudulent pattern and practice:

3  
4 So managers from now on any MD clinic If 20 patients come in  
5 Central needs to get 20 RX /20 Referral needed /20 Eswt screening form /20 pr2 s emailed back to  
6 central.

7 Managerial employees at the Clinics would be terminated if they did not schedule  
8 each patient for a minimum number of treatments, tests, and medications.

9 4. The Clinics invariably order each patient to undergo a boilerplate  
10 battery of treatments, tests, and medications. The physicians, chiropractors,  
11 psychologists, and other personnel at the Clinics prescribe these treatments  
12 without regard for necessity, effectiveness, or patient safety. The Clinics do not  
13 tailor care to a patient's unique medical situation and do not base treatment on a  
14 review of the results of the medical tests. Employees would be demoted if they  
15 did not schedule patients. An excerpt from an email dated November 17, 2011  
16 from Defendant Joanna Munguia, operations manager at one of Defendant Clinics,  
17 to Defendant Doctor Eoh, as well as several employees of the Clinics:

18 Joanna Munguia jmunguiaprhc@gmail.com

11/17/11  
[x] [x] [x]  
[x] [x] [x]

19 to Jessica, Mildred, Lizet, mayra, Maribel, me, bahardc, Eoh

20 Managers and Med Rep,

21 This is a verbal warning to all of you. We need to make make sure we are scheduling 60 patients for the MD clinics.  
22 The show up rate is very low anything below a 50% will result in a written notice or possible demotion.

23 Also remember all the patients that come in for MD need to get UA and meds. The numbers are very off, you need to  
24 monitoring this, this is part of your job!!!!

25 Let me know what the issues are

26 Joanna Munguia

27 5. The majority of the treatments are useless and only used to bill for the  
28 alleged services. Physical therapy treatments, diagnostic tests, psychiatric  
evaluations, and therapeutic massages are performed by uncertified low-wage  
employees and provide no curative effect. Indeed, a number of the treatments

1 require the use of complex and dangerous medical equipment that stimulate nerves  
2 with electricity or use ultrasonic sound waves that can damage tissue. The  
3 technicians who operate these machines have no understanding of how to treat  
4 specific injuries using the different settings and functions of these machines.  
5 **Every patient receives treatment under the exact same setting regardless of**  
6 **that patient's specific injury, e.g., thumb or hip injury, or whether his or her**  
7 **pain is muscular, skeletal, or due to damaged nerves.** Despite the carousel of  
8 tests and treatments, most patients never see any improvement in their chronic  
9 pain.

10 6. The Clinics bill excessive numbers of treatments, tests, and  
11 prescriptions. The billing and collection personnel at the Clinics faced warnings,  
12 demotions, and even terminations if all treatments, tests, and prescriptions were  
13 **not** billed, whether or not there was a doctor's order or other evidence of medical  
14 necessity supporting the bill. Below is an excerpt from a December 13, 2011  
15 email from Defendant Danesh to several employees demanding the employees  
16 performing billing and collections improve the billing numbers OR ELSE:

17  
18 On Tue, Dec 13, 2011 at 7:46 AM, Bahar <[bahardc@gmail.com](mailto:bahardc@gmail.com)> wrote:  
19 Hi Everyone

20 -Unfortunately we have to make big changes since billing departments is failing and we are givin  
21 this one last chance , numbers needed dont get accomplished - department will be shut and  
22 billing outsourced...

23 Changes :

24 - Johana will manage the billing Department till we find a better management system  
25 - numbers u see on the board are what needs to be done. If u are close to max required u will get  
26 a bonus. If u are below Min then unfortunately we can't keep u in that department. This is for  
27 both billing and mailing numbers.

28 -No personal phone calls.

-No more excused , info missing u can't bill - put it in the Box for central to fix. Otherwise Bill  
Bill Bill NO EXCUSE

Mail Mail Mail NO EXCUSE

1 7. Defendants have also unlawfully misappropriated the credentials of  
2 unaffiliated physicians in an attempt to legitimize their operations. The Clinics  
3 display the names of these physicians on their website to create the perception that  
4 they actually treat patients at the Clinics. Further, the Clinics prescribe controlled  
5 substances using the DEA Numbers of these physicians. In some instances, the  
6 Clinics establish superficial or short-lived relationships with physicians, then, after  
7 the relationship has ended, use the physician's name to order and bill for  
8 procedures the physicians did not authorize. Other physicians allow untrained  
9 workers to perform their duties, then sign off and bill insurers and the State at their  
10 full rates.

11 8. After the Clinics write prescriptions for all of their patients, they  
12 often dispense the medications directly from their office. The Clinics also have a  
13 relationship with pharmacies that fill prescriptions without question. Patients are  
14 never given the freedom to have written prescriptions filled at the pharmacy of  
15 their choice, as required under California law.

16 9. The affiliated pharmacies carefully monitor the number of  
17 medications each patient receives and stop filling prescriptions once the patient  
18 crosses a predetermined threshold that might draw the attention of insurers or  
19 regulators. Together, the Clinics and pharmacies ensure they are dispensing and  
20 billing insurers for the maximum number of prescriptions possible for each  
21 patient.

22 10. *Qui Tam* Plaintiff, through investigation and inside knowledge of  
23 Defendants' operations, has obtained vast non-public evidence from various  
24 sources supporting the allegations contained in this Complaint. Among other  
25 evidence, *Qui Tam* Plaintiff is in possession of email correspondence from  
26 Defendant Bahar Gharib-Danesh demanding her employees order medications and  
27 urinalysis for each and every patient that is seen at her clinics, **whether or not** the  
28 patient requires the medication or testing. *Qui Tam* Plaintiff also is in possession

1 of the Central Logs used to track treatments each patient allegedly receives. The  
2 Clinics use a Central Log System to ensure each patient receives the maximum  
3 number of billable medical services, and to direct patient care accordingly.

4 11. Additionally, *Qui Tam* Plaintiff has obtained bills and invoices  
5 charging thousands of dollars per patient for a battery of psychological tests for  
6 patients who sought care at the Clinics. The Clinics and their affiliated  
7 psychologist consistently bill insurers for many more examinations than is  
8 humanly possible, **sometimes for hundreds of hours of evaluations in a single**  
9 **day.** *Qui Tam* Plaintiff has also obtained detailed admissions and descriptions  
10 from individuals involved in this chronic pain management scheme.

11 12. California's employers, including its public employers, are required  
12 by law to carry workers' compensation insurance. In 2010, employers paid over  
13 **\$7 billion** in insurance premiums to **private insurers** or **SCIF**, to cover their  
14 workers' compensation liability. In turn, these insurers have paid billions in  
15 medical claims related to injured workers. As a result of the unlawful scheme  
16 described herein, private workers' compensation insurers, other private insurers,  
17 SCIF, and Medi-Cal have paid for millions in medically unnecessary tests,  
18 treatments, and medications. This unlawful and fraudulent scheme by Defendants  
19 has increased the cost of mandatory workers' compensation coverage for  
20 California's employers and insurance premiums in the private market for every  
21 day working people.

22 13. The Legislature established the State Compensation Insurance Fund  
23 in 1914. It is now the largest provider of workers' compensation coverage in  
24 California. SCIF is a division of the California Department of Industrial Relations  
25 and is considered a California state agency. *Gilmore v. SCIF* (1937) 23  
26 Cal.App.2d 325, 329 (SCIF "is an agency of the state."). SCIF's mission is to  
27 provide an available market for workers' compensation insurance at fair rates, and  
28 to serve as a model for all workers' compensation carriers. SCIF includes

1 approximately 150,000 policyholders, more than \$1.2 billion in premiums, and  
2 nearly \$20 billion in assets. In addition to covering private employers, SCIF also  
3 acts as the workers' compensation carrier for several California state agencies and  
4 political subdivisions. *See* Ins. Code § 11870. SCIF has been fraudulently billed  
5 for millions of dollars by Defendants.

6 14. Additionally, many of the Defendants' patients received treatments  
7 paid for by Medi-Cal – California's safety net for individuals unable to afford  
8 health insurance. Medi-Cal is intended to provide essential care for California's  
9 growing indigent population, but its funds are presently stretched to their limit.  
10 Medi-Cal has been defrauded and abused by unscrupulous providers and others  
11 involved in the healthcare system, including Defendants in this case, who put  
12 profits above the public welfare. These unlawful schemes diminish the quality of  
13 care, and substantially burden taxpayers.

## 14 **II. JURISDICTION AND VENUE**

15 15. This Court has jurisdiction over the claims in this Complaint pursuant  
16 to California Insurance Code § 1871.7 (the "California Insurance Frauds  
17 Prevention Act") and California Government Code § 12652 (the "California False  
18 Claims Act").

19 16. All of the entities named in this Complaint operate under the laws of  
20 California and conduct substantial business within the State of California, as well  
21 as maintain employees and offices within the State. The entities' unlawful, false,  
22 and/or fraudulent conduct took place within the State of California.

23 17. All individuals named in this Complaint reside in California. Their  
24 unlawful, false, and/or fraudulent conduct took place within California.

25 18. Venue in the County of Sacramento is appropriate pursuant to the  
26 California Insurance Frauds Prevent Act and the California False Claims Act. *Qui*  
27 *Tam* Plaintiff brings this action to recover unlawful, false, and/or fraudulent claims  
28 on behalf of the California Department of Insurance, the State Compensation

1 Insurance Fund, and Medi-Cal. These state agencies, as well as their special  
2 investigative units, are located in the County of Sacramento. Moreover, any  
3 recovery achieved under these statutes is returned to the State of California and the  
4 appropriate public agency.

5 **III. PARTIES**

6 **A. Qui Tam Plaintiff**

7 19. The Plaintiff in this action is the State of California, by and through  
8 *Qui Tam* Plaintiff **Anna Maria Christina Sills**, pursuant to Insurance Code §  
9 1871.7(e)(1) and California Government Code § 12652.

10 20. *Qui Tam* Plaintiff **Anna Maria Christina Sills** is an individual and  
11 former employee of Defendant Pain Free Management Company LLC, an entity at  
12 the center of this conspiracy ("Pain Free Management"). Her employment with  
13 Pain Free Management provided her with the opportunity for understanding all of  
14 the related entities, also named as Defendants herein, owned and controlled by  
15 Defendant Gharib-Danesh and others. *Qui Tam* Plaintiff Anna Maria Christina  
16 Sills is an "original source" as that term is defined, and she has direct and  
17 independent knowledge of the information on which these allegations are based.  
18 The facts set forth herein are based entirely upon her personal observation,  
19 investigation, documents, and other tangible things in her possession.

20 21. In November 2011, *Qui Tam* Plaintiff was hired by Pain Free  
21 Management, in Reseda, California as the billing and collections manager. Her  
22 duties at Pain Free Management were to structure the internal billing and  
23 collections department, implement billing software, and perform billing and  
24 collections work for Pain Free Management and numerous other clinics under the  
25 control of Defendant Gharib-Danesh. Prior to *Qui Tam* Plaintiff's employment,  
26 Pain Free Management and the other clinics outsourced billing and collection  
27 services. *Qui Tam* Plaintiff was hired to develop internal billing and collection  
28 services for Pain Free Management and other related entities.

1           22. *Qui Tam* Plaintiff stayed at Pain Free Management through February  
2 2012, during which time she had access to the books and records of Pain Free  
3 Management, and numerous other clinics and entities who participated in the  
4 schemes as hereinafter alleged.

5           23. During her employment at Pain Free Management, *Qui Tam* Plaintiff  
6 raised concerns several times concerning the billing practices of Pain Free  
7 Management and the other clinics. For example, as shown above, on December  
8 13, 2011, Defendant Gharib-Danesh emailed *Qui Tam* Plaintiff and several other  
9 employees, stating “[u]nfortunately we have to make big changes since billing  
10 departments is failing and we are givin this one last chance, numbers needed don’t  
11 get accomplished [*sic*]....” In response, *Qui Tam* Plaintiff wrote “[t]he problems  
12 are that we don’t get information to bill correctly and efficiently....” See **Exhibit**  
13 **A**. *Qui Tam* Plaintiff was told directly and/or in substance or affect that her duties  
14 as a billing and collections managers included not only structuring the internal  
15 billing work as stated above but: a) she was to sign doctors’ name to prescriptions;  
16 b) she was to use different coding; c) she was to make sure that each bill had the  
17 maximum amount of tests; d) she was to engage in various different activities  
18 which were illegal on their face; e) she was told to insert doctors’ names where  
19 necessary; and, above all else, f) she was instructed to keep quiet about the  
20 operation.

21           24. *Qui Tam* Plaintiff was terminated because she repeatedly raised  
22 concerns and refused to participate in the fraud being perpetrated at Pain Free  
23 Management and the other Defendants, as more fully alleged herein.

24           25. Concurrently herewith, *Qui Tam* Plaintiff will provide the Attorney  
25 General’s office, the Sacramento County District Attorney, and the Insurance  
26 Commissioner of California with a full disclosure of substantially all material  
27 facts, as required by Cal. Ins. Code § 1871.7(e)(2), and Government Code §12652.

1           **B.     Individual Defendants**

2           26.     **Defendant Bahar Gharib-Danesh, D.C.** ("Gharib-Danesh"),  
3 California Board of Chiropractic Examiners License Number 28361, is the owner  
4 and operator of many of the Defendant Clinics and entities named herein, and she  
5 is at the center of this medical billing fraud conspiracy. She is a chiropractor  
6 practicing in Southern California. The entities owned and controlled by Gharib-  
7 Danesh have instituted a pattern and practice of defrauding public and private  
8 insurers, and California's consumers. Gharib-Danesh is also active in the scheme  
9 as a chiropractor. **She schedules patients that she never sees, signs off on**  
10 **treatments and tests that she does not perform or supervise, and bills insurers**  
11 **for her time and services.**

12           27.     Gharib-Danesh also pressures her office workers and medical  
13 assistants into performing medical duties far beyond the scope of their training and  
14 aptitude. She has instituted a number of policies requiring clerks and assistants to  
15 bill insurers, forge and stamp the signatures of physicians, and provide medication  
16 to patients. Gharib-Danesh is also responsible for the relationships with the  
17 pharmacies that fill her patients' prescriptions.

18           28.     Gharib-Danesh has knowingly and unlawfully: (a) employed  
19 unlawful "runners, cappers, and steerers" to refer patients to her Clinics; (b)  
20 engaged in a pattern and practice of ordering unnecessary medical tests and  
21 treatments; (c) consistently allowing untrained workers to perform her licensed  
22 duties for her; (d) fraudulently billed insurers for these tests and treatments; (e)  
23 caused other physicians to order and perform unnecessary and medically  
24 insufficient medical treatments; and (f) caused others to prepare and present  
25 fraudulent documents for the purpose of billing insurers.

26           29.     **Defendant Anthony Danesh** ("Tony Danesh") is the brother of  
27 Gharib-Danesh. Tony Danesh is the senior operations manager of the Clinics.  
28

1 Tony Danesh has knowingly engaged in the schemes described herein as well as  
2 aided and abetted Gharib-Danesh in perpetuating this fraud.

3 30. **Defendant Mohammad Gharib** ("Mohammad Gharib") is the father  
4 of Gharib-Danesh. Mohammad Gharib owns some clinics as a straw person for  
5 Gharib-Danesh. Mohammad Gharib has knowingly engaged in the schemes  
6 described herein and aided and abetted Gharib-Danesh in perpetuating this fraud.

7 31. **Defendant Khosrow Gharib** ("Khosrow Gharib") is the mother of  
8 Gharib-Danesh. Khosrow Gharib owns some of the clinics as a straw person for  
9 Gharib-Danesh. Khosrow Gharib has knowingly engaged in the schemes described  
10 herein as well as aided and abetted Gharib-Danesh in perpetuating this fraud.

11 32. Defendants Mohammad Gharib and Khosrow Gharib were  
12 responsible for processing all mail and depositing all checks. They would arrive  
13 at the Clinics with suitcases filled with mail and checks from insurers, and then  
14 secretly process these payments through the various Defendant entities.

15 33. **Defendant Joanna Munguia** ("Munguia") is Operations Manager of  
16 Defendant Pain Free Management and acts as Gharib-Danesh's right-hand.  
17 Munguia has directed employees of the Clinics to engage in the schemes described  
18 herein as well as aided and abetted Gharib-Danesh in perpetuating this fraud.

19 34. **Defendant Nira Hariri** ("Hariri"), California Board of Pharmacy  
20 License Number 52003, owns and operates **Encino Care Pharmacy**, located at  
21 16001 Ventura Blvd., Suite 135, Encino, CA 91436-4481. She is responsible for  
22 ensuring the fraudulently written prescriptions are filled without question and for  
23 providing the Clinics with the necessary documents needed to bill the insurers.

24 35. Defendant Hariri knowingly and unlawfully: (a) filled fraudulent  
25 prescriptions for dangerous medications; (b) prepared fraudulent documents in  
26 support of a false claim presented to insurers for payment; and (c) submitted false  
27 claims to insurers for payment of fraudulently prescribed medications and  
28 medications that Hariri never provided to patients.

1           **C.     Defendant Doctors of Chiropractic Medicine**

2           36.     Each of the Defendant Chiropractors listed herein has participated in  
3 the unlawful scheme to defraud insurers. Each Defendant Chiropractor has:  
4 (a) ordered, or allowed others to order in their name, unnecessary medical tests;  
5 treatments, prescriptions, and durable medical equipment; (b) allowed untrained  
6 workers to perform their licensed duties for them; (c) fraudulently billed insurers  
7 for these medical products and services; (d) caused other physicians to order  
8 unnecessary and medically insufficient medical products and perform unnecessary  
9 procedures; and (e) caused others to prepare and present fraudulent documents for  
10 the purpose of billing insurers.

11           37.     **Defendant Charles Michael Boyer, D.C.** ("Boyer") California  
12 Board of Chiropractic Examiners License Number 12366, is a chiropractor  
13 practicing in Southern California. His principal place of business is 1421 A  
14 Redondo Avenue, Long Beach, California 90804. Boyer is currently employed by  
15 Defendant Gharib-Danesh and practices at the Clinics.

16           38.     **Defendant Na Young Eoh, D.C.** ("Eoh") California Board of  
17 Chiropractic Examiners License Number 28688, is a chiropractor practicing in  
18 Southern California. Eoh's principal place of business is 2920 F Street, #C-5,  
19 Bakersfield, California 93301. Eoh is currently employed by Defendant Gharib-  
20 Danesh and practices at the Clinics.

21           39.     **Defendant Laura Lyn Hazen, D.C.** ("Hazen") California Board of  
22 Chiropractic Examiners License Number 30826, is a chiropractor practicing in  
23 Southern California. Her principal place of business is 7677 Center Avenue, Suite  
24 402, Huntington Beach, California 92647. As of December 16, 2011, Hazen was  
25 employed by Defendant Gharib-Danesh and practiced at the Clinics.

26           40.     **Defendant Lana Elizabeth Montes, D.C.** ("Montes") California  
27 Board of Chiropractic Examiners License Number 30740, is a chiropractor  
28 practicing in Southern California. Her principal place of business is 2211 Corinth

1 Avenue, #301, Los Angeles, California 90064. Montes is currently employed by  
2 Defendant Gharib-Danesh and practices at the Clinics.

3 41. **Defendant Jorge A. Rivas, D.C.** ("Rivas") California Board of  
4 Chiropractic Examiners License Number 30558, is a chiropractor practicing in  
5 Southern California. His principal place of business is 6944 Reseda Blvd.,  
6 Reseda, California 91335, which is the same address as Defendants Pain Free  
7 Management Company LLC, Pain Relief Health Center, LLC, CA Orthopedic and  
8 Pain Centres, Inc., and Southern CA Pain Centre, Inc. As of December 16, 2011,  
9 Rivas was employed by Defendant Gharib-Danesh and practiced at the Clinics.

10 42. **Defendant Rodrigo T. Sanchez, D.C.** ("Sanchez") California Board  
11 of Chiropractic Examiners License Number 26487, is a chiropractor practicing in  
12 Southern California, and is the owner of Defendant Sanchez Chiropractic, Inc.  
13 His principal place of business is 42544 10<sup>th</sup> Street West, Suite G, Lancaster,  
14 California 93534. As of December 16, 2011, Sanchez was employed by  
15 Defendant Gharib-Danesh and practiced at the Clinics.

16 **D. Defendant Doctors of Medicine**

17 43. Each of the Defendant Medical Doctors listed herein has  
18 participated in the unlawful scheme to defraud insurers. The Defendant Medical  
19 Doctors have each: (a) ordered, or allowed others to order in their name,  
20 unnecessary medical tests, treatments, prescriptions, and durable medical  
21 equipment; (b) allowed untrained workers to perform their licensed duties for  
22 them; (c) fraudulently billed insurers for these medical products and services; (d)  
23 caused other physicians to order and perform unnecessary and medically  
24 insufficient medical products and services; (e) prepared and presented, or caused  
25 others to prepare and present, fraudulent documents for the purpose of billing  
26 insurers; and (f) failed to provide their patients with the statutorily mandated  
27 freedom to choose who fills their prescriptions.

1           44.     **Defendant Tushar Ramnik Doshi, M.D.** ("Doshi") Medical Board  
2 of California License Number A53572, is a medical doctor practicing orthopedic  
3 surgery in Southern California. Dr. Doshi's principal place of business is P.O.  
4 Box 7547, Newport Beach, California 92658. Dr. Doshi attended medical school  
5 in India at the University of Bombay, Seth G.S. Medical College. Dr. Doshi is  
6 currently employed by Defendant Gharib-Danesh.

7           45.     **Defendant Boniface Okwudili Onobah, M.D.** ("Onobah") Medical  
8 Board of California License Number A52415, is a medical doctor practicing  
9 neurology in Southern California. Dr. Onobah's principal place of business is  
10 13428 Maxella Avenue, #909, Marina Del Ray, California 90292. Dr. Onobah  
11 attended medical school in Nigeria, at the University of Ilorin Faculty of Health  
12 Sciences. Dr. Onobah is currently employed by Defendant Gharib-Danesh.

13           46.     **Defendant William Bernard Simpson, M.D.** ("Simpson") Medical  
14 Board of California License Number G43101, is a medical doctor practicing  
15 orthopedic surgery in Southern California. Dr. Simpson's principal place of  
16 business is 34740 Carnaghi, Wildomar, California 92595. Dr. Simpson is  
17 responsible for the shockwave therapy treatments at the Clinics, but does not  
18 actually perform the treatments himself. Instead, he relies on low-wage workers to  
19 perform the tests for him. Those workers then bring him the reports to sign. He  
20 also instructs those workers to forge his name on reports when he is not seeing  
21 patients at the Clinics. Dr. Simpson ordered shockwave therapy for over twenty  
22 patients a day — even though he did not examine the patients beforehand — and  
23 ordered four rounds of therapy for every patient. **These treatments, given by**  
24 **low-wage workers, were ineffective, lasting from two to five minutes.** The  
25 purpose of these treatments was to maximize the amount billed to insurers, not  
26 cure the patients.

1       47.   **Defendant Behnoush Zarrini M.D.** ("Zarrini") Medical Board of  
2 California License Number A80739, is a medical doctor practicing pain medicine  
3 in Southern California. Dr. Zarrini's principal place of business is 9808 Venice  
4 Blvd., #707, Culver City, California 90232. Defendant Zarrini attended medical  
5 school in Iran at Tehran University of Medical Sciences and Health Services.  
6 Defendant Zarrini is primarily responsible for the prescription drug prong of the  
7 scheme operating out of the Clinics. **Under the scheme, Defendant Zarrini**  
8 **writes prescriptions for patients he has not examined and allows office clerks**  
9 **to use his signature and credentials to prescribe medications in his absence.**  
10 Under the scheme, Defendant Zarrini also orders medical tests and treatments for  
11 patients without regard to their individual medical needs and allows untrained  
12 office workers and medical assistants to perform these tests and treatments without  
13 supervision.

14       **E.   Defendant Doctor of Psychology**

15       48.   **Defendant John T. Terrence PsyD, PhD** ("Terrence") is a  
16 psychologist with California Board of Psychology License number PSY17840.  
17 Terrence's principal place of business is 13900 Panay Way, # DS-35, Marina Del  
18 Ray, CA 90292. Terrence purportedly performs psychiatric evaluations on patients  
19 in the Clinics. Terrence operates the psychological evaluation arm of the  
20 fraudulent billing scheme, performing sham psychiatric evaluations on as many  
21 patients as possible and billing insurers for up to **20 hours** in a day for services per  
22 patient. Terrence also bills insurers for patients he does not actually evaluate.

23       49.   When submitting bills to insurers, Terrence bills as if he sees up to a  
24 dozen patients per day. For each of these patients, Terrence submits he provided  
25 **each patient** with over twenty hours of psychological evaluations. In a period of  
26 two weeks, Terrence billed in excess of **1,000 hours for services**. See Exhibit B.

1           50. Terrence knowingly and unlawfully: (a) ordered unnecessary  
2 psychiatric evaluations; (b) fraudulently billed insurers in excess of the services  
3 actually rendered; and (c) fraudulently billed for evaluations he did not perform.

4           **F. Defendant Clinics and Other Billing Entities**

5           51. The Defendant Clinics and related Billing Entities herein each  
6 participate in the unlawful scheme to defraud insurers. Some of these entities are  
7 clinics owned and operated by Defendant Gharib-Danesh. Others merely serve as  
8 fictitious entities used to bill insurers. These Clinics and Billing Entities have no  
9 purpose other than to divert some of Defendants' fraudulent bills through diverse  
10 channels to avoid drawing attention to the immense volume of bills generated by  
11 Defendants. **Each entity listed knowingly submits false bills to insurers.**

12           52. The addresses of the Clinics which Gharib-Danesh operates under  
13 the entity names listed below include the following:

- 14           a. 6944 Reseda Blvd., Reseda, California 91335 ("Reseda Office");
- 15           b. 3580 Wilshire Blvd., Suite 100, Los Angeles, California 90010  
16           ("Los Angeles Office");
- 17           c. 1555 W. 5<sup>th</sup> Street, Suite 270, Oxnard, California 93030 ("Oxnard  
18           Office");
- 19           d. 2920 F Street, Suite C-5, Bakersfield, California 93301 ("Bakersfield  
20           Office");
- 21           e. 4201 Long Beach Blvd., Suite 430, Long Beach, California 90807  
22           ("Long Beach Office");
- 23           f. 2323 W. Caldwell Avenue, Visalia, California 93277 ("Visalia  
24           Office");
- 25           g. 1801 E. Edinger Avenue, Suite 125, Santa Ana, California 92705  
26           ("Santa Ana Office"); and
- 27           h. 5339 N. Fresno Street, Suite 105, Fresno, California 93710 ("Fresno  
28           Office").

1           **53. Defendant Bahar Gharib-Danesh Chiropractic, Inc.** ("Danesh  
2 Chiropractic") is located at 132 Vermont Avenue, Suite 204, Los Angeles,  
3 California 90004. Danesh Chiropractic is owned and controlled by Defendant  
4 Gharib-Danesh. Danesh Chiropractic is a suspended California corporation.

5           **54. Defendant Pain Free Management Company LLC** ("Pain Free  
6 Management") is a California LLC located at 6944 Reseda Blvd., Reseda,  
7 California 91335. Pain Free Management is owned and controlled by Defendants  
8 Gharib-Danesh and Tony Danesh.

9           **55. Defendant Pain Relief Health Center, LLC** ("PRHC") is a  
10 California LLC located at 6944 Reseda Blvd., Reseda, California 91335. PRHC is  
11 owned and controlled by Defendant Gharib-Danesh.

12           **56. Defendant Pain Free Diagnostic** ("PFD") is a California corporation  
13 located at 4335 Van Nuys Blvd., Suite 422, Sherman Oaks, California 91364. The  
14 agent for service of process is Bardia Danesh.

15           **57. Defendant CA Orthopedic and Pain Centres, Inc., a Medical**  
16 **Corporation** ("CA Orthopedic") is a California medical corporation located at  
17 9644 Reseda Blvd., Reseda, California 91335. CA Orthopedic is owned and  
18 controlled by Defendant Tushar Doshi, M.D.

19           **58. Defendant Southern CA Pain Centre, Inc.** ("Southern CA Pain") is  
20 a California medical corporation located at 6944 Reseda Blvd., Reseda, California  
21 91355. Southern CA Pain is owned and controlled by Defendant Behnoush  
22 Zarrini, M.D.

23           **59. Defendant Mindwaves Psychological Services, Inc.** ("Mindwaves")  
24 is a California professional corporation located at 4712 Admiralty Way, Suite 476,  
25 Marina Del Rey, California 90292. Mindwaves is owned and controlled by  
26 Defendant John Terrence, PsyD.

27           **60. Defendant Sanchez Chiropractic, Inc.** ("Sanchez Chiropractic") is a  
28 California corporation located at 42544 10<sup>th</sup> Street West, Suite G, Lancaster,

1 California 93534. Sanchez Chiropractic, Inc. is owned and controlled by  
2 Defendant Rodrigo Sanchez, D.C.

3 61. **Defendant United Health Services** ("United Health") is a California  
4 corporation located at 20929 Ventura Blvd., Suite 47385, Woodland Hills,  
5 California 91364. United Health Services is owned and controlled by Bardia  
6 Danesh.

7 62. **Defendant Omnipysch, a Medical Corporation** ("Omnipysch") is a  
8 California medical corporation located at 2312 W. Victory Blvd., Burbank,  
9 California 91506.

10 63. **Defendant Southern California Industrial Clinic** ("SoCal  
11 Industrial") is a suspended California corporation located at 2717 Angelo Drive,  
12 Los Angeles, California 90077. SoCal Industrial is owned and controlled by  
13 Khosrow Gharib, the mother of Defendant Gharib-Danesh.

14 64. **Defendant Encino Care Pharmacy, Inc.** ("Encino Care Pharmacy")  
15 is a California corporation located at 16025 Ventura Blvd., Suite 100, Encino,  
16 California 91436. Encino Care Pharmacy is owned and controlled by Defendant  
17 Nira Hariri.

18 **G. Defendant Does**

19 65. The Defendants set forth above are just a few of the individuals and  
20 entities *Qui Tam* Plaintiff knows are involved in the schemes alleged herein. *Qui*  
21 *Tam* Plaintiff is ignorant of the names and capacities of additional individuals and  
22 entities sued herein as DOES 1 through 60, inclusive, and therefore sues such  
23 Defendants by fictitious names pursuant to California Code of Civil Procedure  
24 § 474. *Qui Tam* Plaintiff will amend this Complaint to allege the true names and  
25 capacities of the fictitiously named Defendants once they are ascertained.

26 **H. Agents, Co-Conspirators, and Aiders and Abettors**

27 66. *Qui Tam* Plaintiff is informed and believes, and on that basis alleges,  
28 that at all times herein mentioned, Defendants, and each of them, were acting as

1 each other's agents and within the course and scope of their agency with the full  
2 knowledge, consent, permission, authorization, and ratification, either express or  
3 implied, of each of the other Defendants in performing the acts alleged herein.

4 67. As members of the conspiracy alleged below, each of the Defendants  
5 participated and acted with or in furtherance of said conspiracy, or aided or  
6 assisted in carrying out the purposes of the conspiracy, and have performed acts  
7 and made statements in furtherance of the conspiracy and other violations of law.  
8 Each of the Defendants acted both individually and in alignment with other  
9 Defendants with full knowledge of their respective wrongful conduct. As such,  
10 the Defendants conspired together, building upon each other's wrongdoing, in  
11 order to accomplish the acts outlined in this complaint.

12 68. Defendants are individually sued as principals, participants, and  
13 aiders and abettors in the wrongful conduct complained of and the liability of each  
14 arises from the fact that each has engaged in all or part of the improper acts, plans,  
15 conspiracies, or transactions complained of herein. Defendants, and each of them,  
16 have participated in or in furtherance of the conspiracy and other violations of  
17 California law, or aided or assisted in carrying out its purposes as alleged in this  
18 Complaint. The conspiracy "may be inferred from the nature of the acts done, the  
19 relations of the parties, the interests of the alleged conspirators, and other  
20 circumstances." *Sales Corp. v. Olsen* (1978) 80 Cal.App.3d 645, 649.

#### 21 **I. Un-Named Co-Conspirators**

22 69. Various other persons, firms, and corporations, not named herein as  
23 Defendants have participated as co-conspirators with Defendants, and each of  
24 them, and have performed acts and made statements in furtherance of the  
25 conspiracy. In the course of participating in the conspiracy and in furtherance of  
26 the objective of the conspiracy, these co-conspirators made statements prior to or  
27 during the time these co-conspirators were participating in the conspiracy that fall  
28 within the provisions of California Evidence Code Section 1223.

1           70. Some of these persons, firms, and corporations are as yet unidentified  
2 because their identities are unknown to *Qui Tam* Plaintiff at this time. Once the  
3 identities of these unknown co-conspirators are ascertained, *Qui Tam* Plaintiff will  
4 seek leave of court to add them as Defendants herein. Others that have been  
5 identified are set forth herein. *Qui Tam* Plaintiff reserves the right to bring claims  
6 against these other persons, firms, and corporations at a later date. The following  
7 persons, firms, and corporations have been identified as having knowledge of  
8 some of the allegations in this Complaint.

9           71. **Roger S. Rahn, D.C.** ("Rahn"), California Board of Chiropractic  
10 Examiners License Number 19253, is a chiropractor practicing in Southern  
11 California. His principal place of business is 5339 N. Fresno Street, Suite 105-E,  
12 Fresno, California 93710. Rahn is employed by Defendant Gharib-Danesh and  
13 practices at the Clinics. **Dr. Rahn is not named as a defendant in this action.**

14           72. **Tram Tran Sotelo, D.C.** ("Sotelo") California Board of Chiropractic  
15 Examiners License Number 30533, is a chiropractor practicing in Southern  
16 California. Sotelo's principal place of business is 1555 W. 5<sup>th</sup> Street, #210,  
17 Oxnard, California 93030. Sotelo is employed by Defendant Gharib-Danesh and  
18 practices at the Clinics. **Dr. Sotelo is not named as a defendant in this action.**

19           73. **Catalino Dominic Dureza, M.D.** ("Dureza") Medical Board of  
20 California License Number A66607, is a medical doctor practicing neurological  
21 surgery in Southern California. Dr. Dureza's principal place of business is 79935  
22 De Sol A Sol, La Quinta, California 92253. Dr. Dureza is employed by Defendant  
23 Gharib-Danesh. **Dr. Dureza is not named as a defendant in this action.**

24           74. **Raquel Christine Dureza-Muneses, M.D.** ("Dureza-Muneses")  
25 Medical Board of California License Number G84893, is a medical doctor  
26 practicing neurological surgery in Southern California. On the State of California  
27 Medical Board website, Dr. Dureza-Muneses' principal place of business is P.O.  
28 Box 94, White Marsh, Maryland 21162. Dr. Dureza-Muneses is currently

1 employed by Defendant Gharib-Danesh. **Dr. Dureza-Muneses is not named as a**  
2 **defendant in this action.**

3 75. **Edwin Haronian, M.D.** ("Haronian") Medical Board of California  
4 License Number A71385, is a medical doctor practicing orthopedic surgery in  
5 Southern California. Dr. Haronian's principal place of business is 16542 Ventura  
6 Blvd., Suite 402, Encino, California 91436. As of April 11, 2011, Dr. Haronian  
7 was employed by Defendant Gharib-Danesh. **Dr. Haronian is not named as a**  
8 **defendant in this action.**

9 76. **Sanjiv Kumar Jain, M.D.** ("Jain") Medical Board of California  
10 License Number A47841, is a medical doctor practicing anesthesiology in  
11 Southern California. Dr. Jain's principal place of business is 19716 Trammell  
12 Lane, Chatsworth, California 91311. Dr. Jain is employed by Defendant Gharib-  
13 Danesh. **Dr. Jain is not named as a defendant in this action.**

14 77. **Stepan Ozcan Kasimian, M.D.** ("Kasimian") Medical Board of  
15 California License Number A77961, is a medical doctor practicing orthopedic  
16 surgery in Southern California. Dr. Kasimian's principal place of business is 1505  
17 Wilson Terrace, Suite 300, Glendale, California 91206. As of April 11, 2011, Dr.  
18 Kasimian was employed by Defendant Gharib-Danesh. **Dr. Kasimian is not**  
19 **named as a defendant in this action.**

20 78. **Abel R. Quesada, M.D.** ("Quesada") Medical Board of California  
21 License Number A100315, is a medical doctor practicing in Southern California.  
22 Dr. Quesada's principal place of business is 1125 E. Broadway, #251, Glendale,  
23 California 91205. Dr. Quesada attended medical school at the Autonomous  
24 University of Guadalajara Faculty of Medicine. Dr. Quesada is employed by  
25 Defendant Gharib-Danesh. **Dr. Quesada is not named as a defendant in this**  
26 **action.**

27 79. **Parviz Salehi, M.D.** ("Salehi") Medical Board of California License  
28 Number A39866, is a medical doctor practicing surgery in Southern California. On

1 the State of California Medical Board website, Dr. Salehi's principal place of  
2 business is listed as P.O. Box 1026, Woodland Hills, California 91365. Dr. Salehi  
3 attended medical school in Iran at Shiraz University Faculty of Medicine, also  
4 known as Pahlavi University. As of April 11, 2011, Dr. Salehi was employed by  
5 Defendant Gharib-Danesh. **Dr. Salehi is not named as a defendant in this**  
6 **action.**

7 80. **Aflatoon Kamran, D.O.** ("Kamran"), Osteopathic Medical Board of  
8 California License Number 20A8503, practices osteopathic medicine in Southern  
9 California. Dr. Kamran's principal place of business is 520 Superior Avenue,  
10 #245, Newport Beach, California 92663. As of April 11, 2011, Dr. Kamran was  
11 employed by Defendant Gharib-Danesh. **Dr. Kamran is not named as a**  
12 **defendant in this action.**

13 81. **Edward Nana Opoku, Jr., D.O.** ("Opoku"), Osteopathic Medical  
14 Board of California License Number 20A11418, practices osteopathic medicine in  
15 Southern California. Dr. Opoku's principal place of business is 2222 Foothill  
16 Blvd., #E122, La Canada Flintridge, California, 91011. Dr. Opoku is employed by  
17 Defendant Gharib-Danesh. **Dr. Opoku is not named as a defendant in this**  
18 **action.**

19 82. **Rehab Acupuncture, Inc.** ("Rehab Acupuncture") is a California  
20 corporation located at 430 32<sup>nd</sup> Street, Suite 100, Newport Beach, California  
21 92663. Rehab Acupuncture is owned and controlled by Nam Suk Lee, Lic. Ac.,  
22 California Acupuncture Board License Number 8662. Nam Suk Lee is among the  
23 acupuncturists employed by Defendant Gharib-Danesh. **Rehab Acupuncture is**  
24 **not named as a defendant in this action.**

25 83. **Advanced Management Group, LLC** ("Advanced Management") is  
26 a California corporation located at 523 W. 6<sup>th</sup> Street, Suite 626, Los Angeles,  
27 California 90014. **Advanced Management is not named as a defendant in this**  
28 **action.**

1           84.    **Caring Health Services, LLC** (“Caring Health”) is a California LLC  
2 located at 4335 Van Nuys Blvd #422, Sherman Oaks, California 91403. **Caring**  
3 **Health is not named as a defendant in this action.**

4           85.    **USS Orthopedic Physical Therapy, PC** (“USS Orthopedic”) is a  
5 California professional corporation located at 16835 Algonquin Street, Suite 499,  
6 Huntington Beach, California 92649. **USS Othopedic is not named as a**  
7 **defendant in this action.**

8           86.    **San Fernando Diagnostic & Imaging, Inc.** (“San Fernando”) is a  
9 California corporation located at 16060 Ventura Blvd., Suite 105-338, Encino,  
10 California 91436. **San Fernando is not named as a defendant in this action.**

11           87.    **Pacific RX, LLC** (“Pacific RX”) is a California corporation located  
12 at 1700 N. Chrisman Road, Tracy, California 95304. **Pacific RX is not named as**  
13 **a defendant in this action.**

#### 14   **IV.   HOW THE SCHEME WORKS**

##### 15       **A.   Billing for Compound Medications Off a Log**

16           88.    Every day billing clerks working at the Clinics are given a  
17 Medications Log by one or more of the following Defendants: Gharib-Danesh,  
18 Anthony Danesh, or Joanna Munguia. These billing clerks then consult the  
19 Medications Log and bill insurers for the compound medications as listed. These  
20 Medications Logs are spreadsheets shared through the Google Docs internet  
21 application, listing what medications to bill insurers for each of the patients.  
22 Although the Medications Logs purport to reflect the prescriptions of physicians,  
23 in reality, the Medication Logs serve as a mechanism by which the Clinics ensure  
24 billing for the **maximum number of prescriptions for each patient.**

25           89.    *Qui Tam* Plaintiff, in her responsibilities structuring the Clinics’  
26 internal billing department, initially sought to obtain the underlying prescriptions  
27 that were necessary to construct the Medications Log and bill insurers. She found  
28 that many of the drug entries on the Medications Log had **no accompanying**

1 **prescription**, and others had unsigned prescriptions. *Qui Tam* Plaintiff also  
2 witnessed Defendant Munguia and other employees forge the signatures of  
3 physicians and chiropractors, and was initially asked to do the same.

4 90. Attached as **Exhibit C** is an example of a Medications Log used at the  
5 Clinics for the purpose of billing insurers. According to this log, Dr. Pratley  
6 allegedly examined 41 patients on April 1, 2011. **Dr. Pratley never saw any of**  
7 **these patients on April 1, 2011.**

8 91. **Exhibit C** also shows that of the 41 patients allegedly seen by Dr.  
9 Pratley on April 1, 2011, 39 patients received exactly the same drugs; Capsacin  
10 .069%, and 40 patients received Amitriptyline 2% and Flubiprofen-D. This  
11 pattern demonstrates the fraudulent nature of the Clinics' practice, as every patient  
12 is receiving the same medications irrespective of his or her actual condition. Every  
13 claim submitted to insurers for prescriptions written without a legitimate medical  
14 purpose is a **false claim**.

15 92. Additionally, the Medications Log is not supported by actual  
16 legitimate prescriptions written by physicians. Many of the prescriptions that the  
17 Medications Log is allegedly based upon are either forged or unsigned, and some  
18 have no accompanying prescription.

19 93. Further, Dr. Pratley, the physician listed as the attending and  
20 prescribing practitioner, *did not practice at these Clinics*. His credentials were  
21 used without his consent to bill insurers for services and medications. Each and  
22 every bill based off of the Medications Log showing Dr. Pratley as the treating and  
23 prescribing physician constitutes a **false claim**.

24 94. **Exhibit D** is a printout of an email chain dated February 16, 2012,  
25 including replies by Defendant Gharib-Danesh and Defendant Munguia. In the  
26 email chain, Munguia reports to Gharib-Danesh that they have found all the  
27 prescriptions that exist. In response, Gharib-Danesh states Munguia should "have  
28 [the billers] stop looking and just bill by pharm report" (*sic*). She further states

1 "billers shouldn't waste time looking for RX." This email shows Defendants  
2 billing insurers for medications that did not have prescriptions and using the  
3 Medications Log to maximize billing.

4 95. **Exhibit E** is a printout of an email dated June 22, 2012 by Defendant  
5 Gharib-Danesh, chastising her employees for failing to comply with the Clinics'  
6 prescription policy. In the email, Gharib-Danesh states "[i]f 20 patients come in  
7 Central needs to get 20 RX/20 Referral needed /20 eswt screening form /20pr2"  
8 (*sic*). Gharib-Danesh is reminding her employees that **every single patient seen**  
9 **must receive a prescription, a referral to other Clinic services, a shockwave**  
10 **therapy screening, and a progress report follow-up appointment.**

11 96. Every claim submitted to insurers for prescriptions that do not have a  
12 signed prescription written by a physician is a **false claim**. Further, every  
13 prescription and procedure billed to insurers that was ordered pursuant to the  
14 Clinics' policy of uniform patient care, instead of independent medical judgment,  
15 is a **false claim**.

16 **B. Enforcement of Daily Patient Quotas**

17 97. A central element of the Clinics' fraudulent scheme is to ensure that  
18 as many patients as possible are processed through Defendants' sham medical  
19 mill, irrespective of whether they actually need treatment. All managers and  
20 schedulers are warned that they will be *terminated* if they fail to schedule 50  
21 patients every day at each of the Clinics.

22 98. The managers and scheduling staff at each Clinic — not medical  
23 professionals — are responsible for determining whether patients require  
24 additional treatment and medical care. These managers and scheduling staff  
25 receive care instructions for all of their patients from Defendant Gharib-Danesh,  
26 even though Gharib-Danesh does not treat these patients.

27 99. **Exhibit F** is a printout of an email chain dated November 17, 2011  
28 written by Defendants Gharib-Danesh and Munguia, warning Doctor Eoh, as well

1 as the managers and medical representatives at the Clinics, that they will be  
2 disciplined if they fail to schedule 50 patients a day for each Clinic. This email  
3 chain demonstrates patient throughput was the primary objective of the Clinics,  
4 and also shows that treating physicians were not the individuals responsible for  
5 ordering appointments and treatments for patients. See excerpt below:

6  
7 Joanna Munguia jmunguiaprhc@gmail.com

11/17/11

8 to Jessica, Mildred, Lizet, mayra, Maribel, me, bahardc. Eoh

9 Managers and Med Rep,

10 This is a verbal warning to all of you. We need to make make sure we are scheduling 50 patients for the MD clinics.  
11 The show up rate is very low anything below a 50% will result in a written notice or possible demotion.

Also remember all the patients that come in for MD need to get UA and meds. The numbers are very off, you need to  
12 monitoring this, this is part of your job!!!

Let me know what the issues are

13 Joanna Munguia

14  
15 100. **Exhibit F** also includes emails by Defendant Gharib-Danesh to the  
16 managers instructing them to ensure that every patient receives signed  
17 prescriptions and urinalysis testing. This email chain also demonstrates  
18 prescriptions and medical tests are uniformly prescribed to patients by office  
19 clerks, not physicians. Every bill submitted to insurers for prescription  
20 medications and treatments pursuant to this blanket policy of having office  
21 personnel order urinalysis and prescriptions for each patient is a **false claim**.

22 101. **Exhibit G** is a printout of an email dated May 4, 2011 from  
23 Defendant Danesh stating all schedulers should schedule 20 patients for  
24 Functional Capacity Evaluations ("FCE") in 15 minute intervals. This email  
25 shows the pattern and practice of maximizing the number of patients seen at the  
26 Clinics every day with no regard for independent medical judgment. All bills  
27 submitted to insurers for patients scheduled and treated pursuant to the quota  
28 system articulated in **Exhibits F and G** are **false claims**.

1           102.   **Exhibit H** is a printout of two emails dated April 16, 2011 between  
2 Defendant Gharib-Danesh and Defendant Munguia discussing the need to increase  
3 the number of patients receiving tests at their appointments. Defendant Gharib-  
4 Danesh complains that Defendant Zarrini orders an unacceptably low number of  
5 tests, and that across the board the Clinic managers “need to double the #s” (*sic*).  
6 This email demonstrates that the objective of the Clinics is to order as many tests  
7 as possible without regard for medical necessity or patient needs. Every bill  
8 submitted to insurers for tests and treatments ordered under the Clinics’ quota  
9 policy is a **false claim**.

10           C.   **Patients Are Required to Receive Repeated Tests, Treatments**  
11               **and Mandatory Return Appointments**

12           103.   Once patients are in the care of the Clinics, they are required to  
13 undergo repeated rounds of tests and treatments. Clinic staff are instructed to  
14 ensure that every patient has a return appointment scheduled before the patient  
15 leaves, no matter what their individual circumstances are.

16           104.   **Exhibit I** is a printout of two emails dated March 4, 2011 between  
17 Defendant Gharib-Danesh and Defendant Munguia discussing the scheduling of  
18 return appointments for patients. In the email, Gharib-Danesh notes Attorney  
19 Wachtel was upset because a patient never received a return appointment. Gharib-  
20 Danesh also warns she does not want any patients to leave the office without a  
21 return appointment, and schedulers who fail to comply will be terminated.

22           105.   This email demonstrates the Clinics’ emphasis on maximizing  
23 patient treatment for billing purposes. Defendant Gharib-Danesh’s comments  
24 illustrate medical judgment plays no role in determining what treatment each  
25 patient receives. Every bill submitted to insurers for appointments, tests, and  
26 treatments pursuant to the policy of artificially increasing the number of  
27 appointments is a **false claim**.

1           **D. Master Logs Are Used to Direct Patient Care**

2           106. As further evidence that patient care at the Clinics was implemented  
3 by unlicensed workers following boilerplate instructions, and not by licensed  
4 physicians exercising independent medical judgment, each Clinic kept a Master  
5 Log of patients showing the treatment that each received. The Master Log was  
6 updated daily to ensure each patient received the maximum amount of services  
7 they could force upon a patient. In fact, the Clinics had to keep several Master  
8 Logs due to the sheer volume of patients seen.

9           107. **Exhibit J** is a Master Log for Dr. Pratley at the Los Angeles Clinic  
10 for mid-2011. The log has columns indicating the types of treatments each patient  
11 received. For example, the first column shows the patient's date of referral under  
12 the heading "DOR." The third column indicates the primary treating physician  
13 and whether the patient's appointment was a follow-up.

14           108. The remaining columns indicate what treatment and prescriptions  
15 the patient received. Column 4 shows what MRI tests the patient received.  
16 Column 5 lists the Durable Medical Equipment ordered under the heading  
17 "DME." Additional Columns show whether the patient received medications  
18 ("MEDS"), acupuncture ("ACCU"), chiropractic treatment ("CHIRO"),  
19 shockwave therapy ("SHOCKWAVE"), nerve conduction tests ("VSNCT"), and  
20 psychological evaluations ("PSYCH").

21           109. **This Master Log shows almost every patient received the**  
22 **identical treatment in an attempt to maximize billing to insurers.** For  
23 example, nearly every patient is ordered to receive acupuncture and chiropractic  
24 treatment twice a week for six weeks. Most patients received psychological  
25 evaluation referrals. 21 of 24 patients seen on May 26, 2011, received shockwave  
26 therapy. The Master Log contains unjustified uniformity of treatment and patterns  
27 of care inconsistent with proper independent medical judgment. All bills  
28 submitted to insurers for medical services, prescriptions, and durable medical

1 equipment directed by the use of a Master Log, rather than sound medical  
2 judgment, are **false claims**.

3 110. This Master Log also shows that the Clinics claim Dr. Pratley saw  
4 hundreds of patients and prescribed thousands of MRIs, acupuncture treatments,  
5 shockwave therapy treatments, psychological evaluations, and durable medical  
6 equipment. Because Dr. Pratley did not practice at these Clinics, the bills based  
7 on the Master Logs constitute **false claims**.

8 **E. Fraudulent Billing by Listing False Treatments on a Daily Basis**

9 111. The Clinics also falsified hundreds of bills to insurers by billing for  
10 treatments that never occurred. The Clinics billed insurers for acupuncture  
11 treatments of up to 82 patients *per day*, far more than could actually be treated by  
12 a certified acupuncturist at the Clinics.

13 112. **Exhibit K** is a Central Report generated by Defendant Gharib-  
14 Danesh's central office to track patient care for the purpose of billing. This  
15 Central Report details the number of treatments given at the Los Angeles Clinic  
16 during early 2011. The Central Report shows that on Friday, February 11, 2011,  
17 71 patients purportedly received acupuncture treatments. It also shows 73 patients  
18 received acupuncture on February 14, and 71 patients received acupuncture on  
19 February 28. Similarly, the Central Report also shows over 75 patients per day  
20 were treated with physical therapy on certain days, and dozens of patients received  
21 Nerve Conduction Studies ("VSNCT"), shockwave therapy, and  
22 Electromyography ("Ncv-emg").

23 113. This Central Report demonstrates that Defendants were engaged in  
24 fraudulent billing for services that never occurred because the clinics did not have  
25 sufficient staff or resources to perform all of the procedures. The Central Report  
26 further demonstrates the Clinics' blanket approach to developing care plans for  
27 their patients. Each bill submitted to insurers for services not actually  
28 administered, or for unnecessary services, is a **false claim**.

1           **F. The Fraudulent Designation of Primary Treating Physicians**

2           114. The Clinics also instituted a policy to fraudulently designate a  
3 patient's Primary Treating Physician ("PTP") based on whether that physician or  
4 chiropractor is in the patients' Medical Provider Network ("MPN"), instead of  
5 listing which practitioner — if any — actually treats the patient. In many cases,  
6 Defendant Rivas was the preferred PTP because he covered most MPNs.

7           115. If the Clinics encountered an issue with a patient's MPN not  
8 covering a particular practitioner, they simply adjusted the paperwork to list  
9 another covered practitioner, or simply listed the Clinic itself. Similarly, if the  
10 referring attorneys wanted a physician to treat a particular patient, Defendant  
11 Gharib-Danesh instructed her employees to use the Clinic chiropractors as co-  
12 treating practitioners or secondary consults to preserve their ability to maximize  
13 billing to insurers.

14           116. **Exhibit L** is a printout of an email dated January 17, 2011 by  
15 Defendant Gharib-Danesh instructing her employees that, "if there's MPN issue  
16 with one provider, the patient can be switched to another provider within the MPN  
17 in our group" (*sic*). She further instructs her employees that, "if you are not sure  
18 which provider application is final just have them designate 'Pain Relief Health  
19 Centre' as PTP and if any problems we'll switch within our group" (*sic*).

20           117. **Exhibit M** is a printout of an email dated January 24, 2011 by  
21 Defendant Gharib-Danesh to her employees. The email directs that Dr. Rivas and  
22 other chiropractors are to be listed as the PTP because they are in most MPNs. It  
23 also explains how to resist the referring attorney's request to use a medical doctor  
24 as a PTP, and how to ensure the chiropractors are involved in care so Gharib-  
25 Danesh can track treatments.

26           118. **Exhibits L and M** demonstrate the Clinics' practice of fraudulently  
27 listing medical providers as the PTP in order to ensure the Clinics could bill the  
28 patient's insurer. Gharib-Danesh never considers listing which physician, if any,

1 treated the patient. Exhibit L also shows Gharib-Danesh instructing her billing  
2 associates to reverse the paperwork long after the patient has been seen. These  
3 documents show the Clinics did not contemporaneously align the patients with  
4 providers in their networks before the start of treatment, but altered medical  
5 records in order to increase costs to insurers. The use of fraudulently drafted  
6 documents misrepresenting the PTP constitutes a false claim.

7 **G. Using the Credentials of Unaffiliated Physicians**

8 119. The Clinics also misappropriated the credentials of unaffiliated  
9 physicians in violation of California Business and Professions Code § 2289. The  
10 Clinics advertise the names of these physicians creating the perception that  
11 physicians actually treat patients at the Clinics. The Clinics also use the names of  
12 these physicians to order treatments and write prescriptions with the purpose of  
13 billing insurers.

14 120. During *Qui Tam* Plaintiff's tenure at the Clinics, she never saw or  
15 met Dr. Pratley. Moreover, she has spoken to many of her former co-workers,  
16 none of whom have ever seen or met Dr. Pratley. *Qui Tam* Plaintiff has personal  
17 knowledge that Dr. Pratley will say:

- 18 A. He has never practiced at the Clinics;  
19 B. He has never performed *or* prescribed extra corporeal Shock  
20 Wave Therapy to any patient;  
21 C. He has never given permission to anyone to use his medical  
22 license to evaluate patients;  
23 D. He has never sent patients to Defendant Harriri to fill their  
24 prescriptions;  
25 E. He would never prescribe six different compound medications  
26 to a single patient;  
27 F. He would never prescribe the exact same medications to all  
28 patients he sees; and

1 G. He has never given permission to Pain Relief Health Center or  
2 any of Defendant Clinics to use his name on their web page.

3 121. **Exhibits C and J** are documents containing references to Dr. Pratley,  
4 including references to compound prescription drugs and shockwave therapy  
5 treatments he allegedly ordered. The Clinics have also promoted Dr. Pratley as a  
6 treating physician on their website.

7 122. **Exhibit N** is a printout of an email dated April 29, 2011 from  
8 Defendant Gharib-Danesh to her employees. It states Dr. Pratley has ordered Vital  
9 Wrap DME for all of his patients at all of the Clinics. This email demonstrates the  
10 fraudulent use of another physician's credentials to order treatment and prescribe  
11 medical equipment. Every bill submitted to insurers which lists Dr. Pratley as the  
12 physician who treated, prescribed, or ordered a reimbursable service is a **false**  
13 **claim**.

14 **H. Obtaining Referrals from Attorneys for a Guaranteed Diagnosis**

15 123. The Clinics obtain all of their patients from referral sources. The  
16 majority of these sources are attorneys who specialize in workers' compensation  
17 law. **The Clinics and these attorneys have entered into an unlawful kickback**  
18 **arrangement**. The attorneys bring scores of "patients" to the Clinics. In  
19 return, the Clinics guarantee that all of the patients will be seen 24 times over  
20 six months for pain treatment. Under the American College of Occupational  
21 and Environmental Medicine's guidelines ("ACOEM"), once a patient has  
22 undergone six months of treatment, that is the clinical predicate for being  
23 diagnosed as in "chronic pain." Once a patient is deemed in "chronic pain," the  
24 patient is clinically eligible for additional benefits, and more treatments for the  
25 clinics to bill insurers. The ACOEM's guidelines are expressly incorporated into  
26 the California workers' compensation system through Lab. Code §§ 4600(b),  
27 4604.5(c), 4610, 4616.

28 124.

1           125.     **Exhibit I** highlights the unlawful referral and kickback scheme  
2 engaged in by Defendant Clinics and attorneys. This March 4, 2011 email shows  
3 attorney Wachtel is upset because the patients he referred to the Clinics did not  
4 receive the guaranteed number of visits to allow them to be diagnosed with  
5 “chronic pain” in order to maximize the damages in his clients’ workers’  
6 compensation claims. Each patient procured by unlawful runners, cappers, and  
7 steerers violates California Insurance Code § 1871.7(a) and all procedures billed  
8 to insurers for these patients constitute **false claims**. Additionally, each treatment,  
9 test, and appointment billed to insurers that was ordered pursuant to the Clinics’  
10 unlawful guaranteed diagnosis kickback is a **false claim**.

11           **I.     Ensuring Chronic Condition Diagnoses for Every Patient to**  
12           **Inflate False Billing**

13           126. A primary objective of the Clinics’ fraudulent scheduling and  
14 treatment scheme was to classify every patient as having a “chronic” condition  
15 under the ACOEM’s guidelines and Lab. Code §§ 4600(b), 4604.5(c), 4610, 4616.  
16 Once a patient is treated at the clinic 24 times over a period of six months, the  
17 patient’s condition is diagnosed as “chronic” and eligible for additional treatment  
18 and benefits.

19           127. **Exhibit O** is a printout of an email dated January 21, 2011 from  
20 Defendant Gharib-Danesh to her employees. Through this email, Gharib-Danesh  
21 instructed her employees to focus their efforts on contacting patients that began  
22 treatment within the last 4 months but stopped treatment at the Clinics before they  
23 visited 24 times, or before they met the six-month threshold under ACOEM’s  
24 guidelines and Lab. Code §§ 4600(b), 4604.5(c), 4610, 4616. This email  
25 demonstrates the Clinics’ primary objective to continue patient treatments to six  
26 months in order to obtain a diagnosis of a chronic condition, thereby allowing the  
27 clinics to increase billing to insurers.

1           128. In the January 21 email (**Exhibit O**), Defendant Gharib-Danesh also  
2 instructed her employees to contact **the patient's attorney** if the patient stopped  
3 attending their scheduled appointments at the Clinics. She noted that patients may  
4 have stopped attending treatments if they changed attorneys or settled their case.  
5 This email illustrates the relationship between the Clinics and the referring  
6 attorneys as patients only receive treatment so long as their attorney has not settled  
7 their case. Also, a patient may stop treatment at the clinic if they changed attorneys  
8 and changed clinics. This further illustrates how invested referring attorneys are in  
9 obtaining a diagnosis of a chronic condition for their clients while they are  
10 patients of the clinics.

11           **J. Fraudulent Billing for Psychological Evaluations**

12           129. The Clinics worked closely with Defendant Terrence, a California  
13 licensed psychologist, to fraudulently bill insurers for psychological evaluations.  
14 **Defendant Terrence performed sham evaluations on his patients and grossly**  
15 **inflated the amount of time he allegedly spent with each patient.** Many of the  
16 evaluations for which he billed insurers never occurred.

17           130. **Exhibit B** is a spreadsheet summarizing Defendant Terrence's billing  
18 to insurers for patient evaluations during late 2011. Pattern analysis of this data  
19 shows that these evaluations are fraudulent. Defendant Terrence billed insurers  
20 the exact same amount for a boilerplate bundle of psychiatric evaluations for  
21 multiple different patients. Each patient received exactly 20.8 hours of  
22 evaluations. Defendant Terrence billed for the exact same amount of time for each  
23 component of the evaluations for each patient. The medical history prepared by  
24 Defendant Terrence for each patient never changed no matter how disparate their  
25 medical histories may have been. This type of "care" is fraudulent and any  
26 submission of claims arising from it constitute **false claims**.

27           131. **Exhibit B** also shows Defendant Terrence billing insurers for an  
28 impossible amount of time treating patients. For example, on September 30, 2011,

1 he billed a total of **166.4 hours** for treating eight patients. Just seven days later he  
2 billed insurers for treating fourteen patients on October 7, 2011, for a total of  
3 **291.2 hours** of evaluations that day. Between October 12 and 14, 2011 he billed  
4 for 32 patients and **665.6 hours**. In a period of two weeks, Defendant Terrence  
5 submitted bills to insurers claiming he spent **1,123.2 hours** treating patients and  
6 writing reports. **This amount of hours is over three times the total available**  
7 **hours on planet earth for that time-period.** Every bill to insurers for  
8 psychological evaluations that inflated the duration or existence of services is a  
9 false claim.

10 132. Exhibit P and Exhibit Q are two psychological evaluation reports  
11 prepared by Defendant Terrence summarizing his findings. The reports generated  
12 by Terrence contain identical sections that appear to be replicated in every report.  
13 Exhibits P & Q show both patients presented with anxiety, daily depression,  
14 irritability, and anger. Both patients experienced memory loss, social isolation,  
15 headaches, and a loss of self-esteem. *Qui Tam* Plaintiff has examined a number of  
16 other psychological evaluation reports generated by Defendant Terrence, and they  
17 all contain identical language. **While there are many common threads among**  
18 **patients experiencing chronic pain, Defendant Terrence's psychological**  
19 **reports are all virtually identical, both substantively and stylistically. The**  
20 **litany of symptoms is presented in the same order, using the same sentence**  
21 **structure, and the same diction.** *Qui Tam* Plaintiff is in possession of many  
22 more patient reports also containing the same language. Every bill to insurers that  
23 contains boilerplate information that was not obtained through a legitimate  
24 psychological evaluation is a false claim.

25 K. Untrained and Uncertified Workers Employed to Perform  
26 Medical Services at the Clinics

27 133. Defendant Gharib-Danesh hires young workers in their early twenties  
28 to perform physical therapy, massage, treatments, and tests on Clinic patients.

1 Many of these workers have little or no training. For example, the workers receive  
2 approximately four hours of training on the equipment used in shockwave therapy.  
3 These machines allow the user to calibrate the pressure and frequency of the  
4 ultrasonic waves. The different settings allow the user to adjust the machine based  
5 on the condition of the patient and the location of the injury. However, at higher  
6 settings the sound waves can cause tissue damage. The workers do not understand  
7 the settings or how to adjust them to effectively treat patients. **They are therefore**  
8 **instructed to never adjust the settings on the shockwave therapy machine**  
9 **under any circumstances and give every patient the exact same treatment**  
10 **regardless of injury.**

11 134. The treatment itself is short and cursory. The Clinics' employees are  
12 instructed to limit all treatments to 15 minutes or less, and so many patients are  
13 scheduled that workers are forced to adhere to the strict time limit. Some workers  
14 who perform shockwave therapy are instructed to spend only 5 minutes giving  
15 treatment to patients, and often spend less time because the patients were visibly in  
16 pain. Every medical service billed to insurers performed by untrained workers is a  
17 false claim.

18 **L. The Clinics Dispense Compound Medications Directly or**  
19 **Through Pharmacies in Violation of the Patients' Rights**

20 135. The Clinics have taken an active role in drug distribution by  
21 dispensing compound drugs directly to their patients during their visits. This step  
22 bypasses the use of a pharmacy entirely and allows the Clinics to bill insurers  
23 directly.

24 136. In addition, the Clinics conspire with pharmacies, also named as  
25 Defendants herein, to dispense expensive medications to each and every patient.  
26 **These pharmacies rubber stamp any prescription submitted by the Clinics**  
27 **and mail the medications directly to the patient without any accompanying**  
28 **instructions or consultation.** Irrespective of whether the Clinics provide

1 medications through direct dispensing or through arrangements with Defendant  
2 Pharmacies, the Clinics disregard the patients' right to choose where they want  
3 their prescriptions filled. This conduct violates California Business and  
4 Professions Code § 4170. Every bill submitted to insurers for prescription  
5 medications dispensed in violation of Section 4170 is a **false claim**.

6 **V. EACH DEFENDANT'S PARTICIPATION IN THE CONSPIRACY**

7 **A. The Individual Defendants**

8 137. Defendant **GHARIB-DANESH** is at the center of this medical  
9 billing fraud conspiracy. She owns and operates many of the Defendant Clinics  
10 and entities herein. The entities owned and controlled by Gharib-Danesh have  
11 engaged in a pattern and practice of defrauding public and private insurers and  
12 California's consumers. Gharib-Danesh is also active in the scheme as a  
13 chiropractor. **She schedules patients that she never sees, signs off on**  
14 **treatments and tests that she does not perform or supervise, bills insurers for**  
15 **her time and services, and causes others to do the same.**

16 138. Gharib-Danesh also pressures all office workers and medical  
17 assistants into performing medical duties far beyond the scope of their training and  
18 aptitude. She has instituted a number of policies requiring clerks and assistants to  
19 bill insurers, forge and stamp the signatures of physicians, and provide medication  
20 to patients. Gharib-Danesh is also responsible for the relationships with the  
21 pharmacies that fill her patients' prescriptions.

22 139. Gharib-Danesh has knowingly and unlawfully: (a) employed  
23 unlawful "runners, cappers and steerers" to refer patients to her Clinics; (b)  
24 engaged in a pattern and practice of ordering unnecessary medical tests and  
25 treatments; (c) consistently allowing untrained workers to perform her licensed  
26 duties for her; (d) fraudulently billed insurers for these tests and treatments; (e)  
27 caused other physicians to order and perform unnecessary and medically

1 insufficient medical treatments; and (f) caused others to prepare and present  
2 fraudulent documents for the purpose of billing insurers.

3       140. **Defendant TONY DANESH**, the brother of Gharib-Danesh, is also  
4 fundamental to this medical billing fraud conspiracy. Tony Danesh serves as the  
5 overall operations manager of the Clinics. Tony Danesh has knowingly engaged in  
6 the schemes described herein as well as aided and abetted Gharib-Danesh in  
7 perpetuating this vast fraud.

8       141. **Defendant MOHAMMAD GHARIB**, the father of Gharib-Danesh,  
9 provides substantial aid to this medical billing fraud conspiracy. Mohammad  
10 Gharib serves as supposed "owner" of some Clinics, but is in reality a mere straw  
11 person for Gharib-Danesh. Mohammad Gharib has knowingly engaged in the  
12 schemes and aided and abetted Gharib-Danesh in perpetuating this fraud.

13       142. **Defendant KHOSROW GHARIB**, the mother of Gharib-Danesh,  
14 provides substantial aid to this medical billing fraud conspiracy. Khosrow Gharib  
15 serves as supposed "owner" of some of the Clinics, but is in reality a mere straw  
16 person for Gharib-Danesh. Khosrow Gharib has knowingly engaged in the  
17 schemes described herein as well as aided and abetted Gharib-Danesh in  
18 perpetuating this vast fraud.

19       143. Defendants Mohammad Gharib and Khosrow Gharib were  
20 responsible for processing all mail and depositing all checks. They would arrive  
21 at the Clinics with suitcases filled with mail and checks from insurers, and then  
22 secretly process these payments through the various Defendant entities.

23       144. **Defendant JOANNA MUNGUIA**, as Operations Manager of  
24 Defendant Pain Free Management, acts as Gharib-Danesh's right-hand person.  
25 Munguia has directed employees of the Clinics to engage in the schemes described  
26 herein and aided and abetted Gharib-Danesh in perpetuating this fraud.

27       145. **Defendant NIRA HARIRI** owns and operates Defendant Encino  
28 Care Pharmacy. She is responsible for ensuring the fraudulently written

1 prescriptions are filled without question and for providing the Clinics with the  
2 necessary documents needed to bill the insurers. She receives kickbacks as well.  
3 146. Defendant Hariri knowingly and unlawfully: (a) filled fraudulent  
4 prescriptions for dangerous medications; (b) prepared fraudulent documents in  
5 support of a false claim presented to insurers for payment; and (c) submitted false  
6 claims to insurers for payment of fraudulently prescribed medications and  
7 medications that Hariri never provided to patients.

8 **B. Defendant Chiropractors and Medical Doctors**

9 147. Exhibits R, S, and T are printouts from Defendant Pain Relief  
10 Health Center's website, dated April 11, 2011, December 16, 2011, and July 6,  
11 2012, respectively. These documents identify many of Defendant Chiropractors,  
12 Defendant Medical Doctors, and Defendant Doctor of Psychology who have been  
13 or are active participants in the unlawful scheme to defraud insurers.

14 148. Defendant **CHARLES MICHAEL BOYER**, a chiropractor, is  
15 currently employed by Defendant Gharib-Danesh and practices at the Clinics. *See*  
16 Exhibit T. Defendant Boyer engaged in a pattern and practice of ordering dozens  
17 of tests, treatments, and medications for **all** patients, regardless of injury or proper  
18 medical diagnosis. Many of these procedures are never performed, and patients  
19 often never receive the medications for which the insurers pay. Each stage of the  
20 patients' care is designed to fraudulently maximize billing while providing no  
21 actual medical care or benefit.

22 149. Each stage of a patient's care is designed to fraudulently maximize  
23 billing while providing no actual medical care or benefit. For example, on  
24 October 13, 2011, from 9:00 a.m. to 11:35 a.m., Defendant Boyer billed for 61  
25 patient visits. A cursory review of the schedule for Defendant Boyer demonstrates  
26 the audacity that characterizes this insurance fraud. From 9:00 a.m. to 11:35 a.m.,  
27 Defendant Boyer billed for seeing four separate patients every five minutes.  
28

1           150. Defendant Boyer prescribes these treatments without regard for  
2 necessity or effectiveness. As an example, on December 14, 2010, Defendant  
3 Boyer caused to be billed *four* separate Beck Depression Inventories, *three*  
4 Sentence Completion Tests, and *two* Assessments of Aphasia, all supposedly  
5 performed on the same patient on the same day. See Exhibit U.

6           151. Defendant Boyer does not tailor care to a patient's unique medical  
7 situation and does not base the care on a review of the results of the medical tests.  
8 Instead, Defendant Boyer uses boilerplate diagnoses, such as "stress, anxiety,  
9 insomnia." By using such a diagnosis, Defendants are able to cause all patients to  
10 be seen by Defendant Terrence, further unnecessarily inflating bills to insurers.  
11 Physical therapy treatments, diagnostic tests, psychiatric evaluations, and  
12 therapeutic massages are performed by uncertified low-wage employees and  
13 provide no curative effect. The technicians who operate these machines have no  
14 understanding of how to treat specific injuries using the different settings and  
15 functions of these machines. Every patient receives treatment under the exact  
16 same setting with no regard for their specific injury, e.g., thumb or hip injury, or  
17 whether his or her pain is muscular, skeletal, or due to damaged nerves. Despite  
18 the carousel of tests and treatments, most patients never see any improvement in  
19 their chronic pain. Defendant Boyer allows untrained workers to perform his  
20 professional duties, then signs off and bills insurers and the State at his full rates.  
21 Defendant Boyer is part of the scheme whereby the Central Logs are used to  
22 ensure each patient receives the maximum number of billable medical services,  
23 and to direct patient care accordingly.

24           152. **Defendant NA YOUNG EOH**, a chiropractor, is currently employed  
25 by Defendant Gharib-Danesh and practices at the Clinics. See Exhibit T.  
26 Defendant Eoh engaged in a pattern and practice of, like those above, ordering  
27 dozens of tests, treatments, and medications for **all** patients, regardless of injury or  
28 proper medical diagnosis. Many of these procedures are never performed, and

1 patients often never receive the medications for which the insurers pay. Each  
2 stage of the patients' care is designed to fraudulently maximize billing while  
3 providing no actual medical care or benefit. Defendant Eoh invariably causes  
4 each patient to undergo a boilerplate battery of treatments, tests, and medications.  
5 Defendant Eoh prescribes these treatments without regard for necessity,  
6 effectiveness, or patient safety. Defendant Eoh does not tailor care to a patient's  
7 unique medical situation and does not base the care on a review of the results of  
8 the medical tests. Instead, Defendant Eoh also uses boilerplate diagnoses, such as  
9 "stress, anxiety, insomnia." By using such a diagnosis, Defendants are able to  
10 cause all patients to be seen by Defendant Terrence, further unnecessarily inflating  
11 bills to insurers.

12 153. Defendant Eoh was involved in Defendants' practice of "doctor  
13 swapping" for purposes of obtaining insurance coverage for a patient's treatment.  
14 "Doctor swapping" occurs when a doctor is treating a patient and that doctor is  
15 "out of network." The Clinics would bill an insurer, using the name of a second  
16 doctor, one who is within the insurer's network, as the doctor treating the patient.

17 154. Physical therapy treatments, diagnostic tests, psychiatric evaluations,  
18 and therapeutic massages are performed by uncertified, low-wage employees, and  
19 provide no curative effect. The technicians who operate these machines have no  
20 understanding of how to treat specific injuries using the different settings and  
21 functions of these machines. Every patient receives treatment under the exact  
22 same setting with no regard for their specific injury, e.g., thumb or hip injury, or  
23 whether his or her pain is muscular, skeletal, or due to damaged nerves. Despite  
24 the carousel of tests and treatments, most patients never see any improvement in  
25 their chronic pain. Defendant Eoh allows untrained workers to perform his  
26 professional duties, then signs off and bills insurers and the State at Defendant  
27 Eoh's full rates. Defendant Eoh is part of the scheme whereby the Central Logs  
28 are used to ensure each patient receives the maximum number of billable medical

1 services, and to direct patient care accordingly. Defendant Eoh was one of several  
2 employees who received an email dated March 4, 2011 from Defendant Gharib-  
3 Danesh, warning that she does not want any patients to leave the office without a  
4 return appointment, and schedulers who fail to comply will be terminated. *See*  
5 **Exhibit I**. Defendant Eoh was also one of several employees who received an  
6 email dated November 17, 2011, written by Defendants Gharib-Danesh and  
7 Munguia, warning the managers and medical representatives at the Clinics that  
8 they would be disciplined if they failed to schedule 50 patients a day for each  
9 Clinic. *See* **Exhibit F**.

10 155. Defendant **LAURA LYN HAZEN**, a chiropractor, was employed  
11 by Defendant Gharib-Danesh and practiced at the Clinics as of December 16,  
12 2011. *See* **Exhibit S**. Defendant Hazen engaged in a pattern and practice of, like  
13 those above, ordering dozens of tests, treatments, and medications for **all** patients,  
14 regardless of injury or proper medical diagnosis. Many of these procedures are  
15 never performed, and patients often never receive the medications for which the  
16 insurers pay. Each stage of a patient's care is designed to fraudulently maximize  
17 billing while providing no actual medical care or benefit.

18 156. For example, on December 6, 2011, from 9:00 a.m. to 11:05 a.m.,  
19 Defendant Hazen billed for 66 patient visits. *See* **Exhibit V**. A cursory review of  
20 **Exhibit V** demonstrates the degree and audacity that characterizes this insurance  
21 fraud. For the five minute time period, from 9:00 a.m. to 9:05 a.m., Defendant  
22 Hazen billed for seeing seven separate patients.

23 157. Furthermore, Defendant Hazen invariably causes each patient to  
24 undergo a boilerplate battery of treatments, tests, and medications. Defendant  
25 Hazen prescribes these treatments without regard for necessity or effectiveness.  
26 Defendant Hazen does not tailor care to a patient's unique medical situation and  
27 does not base the care on a review of the results of the medical tests. The majority  
28 of the treatments are useless. Physical therapy treatments, diagnostic tests,

1 psychiatric evaluations, and therapeutic massages are performed by uncertified  
2 low-wage employees and provide no curative effect. The technicians who operate  
3 these machines have no understanding of how to treat specific injuries using the  
4 different settings and functions of these machines. Every patient receives  
5 treatment under the exact same setting with no regard for their specific injury, e.g.,  
6 thumb or hip injury, or whether his or her pain is muscular, skeletal, or due to  
7 damaged nerves. Despite the carousel of tests and treatments, most patients never  
8 see any improvement in their chronic pain. Defendant Hazen allows untrained  
9 workers to perform her professional duties, then signs off and bills insurers and  
10 the State at her full rates. Defendant Hazen is part of the scheme whereby the  
11 Central Logs are used to ensure each patient receives the maximum number of  
12 billable medical services, and to direct patient care accordingly.

13       158. **Defendant LANA ELIZABETH MONTES**, a chiropractor, is  
14 currently employed by Defendant Gharib-Danesh and practices at the Clinics. *See*  
15 **Exhibit T**. Defendant Montes engaged in a pattern and practice of, like those  
16 above, ordering dozens of tests, treatments, and medications for **all** patients,  
17 regardless of injury or proper medical diagnosis. Many of these procedures are  
18 never performed, and patients often never receive the medications for which the  
19 insurers pay. Each stage of the patients' care is designed to fraudulently maximize  
20 billing while providing no actual medical care or benefit. For example, on  
21 November 10, 2011, from 9:00 a.m. to 12:15 p.m., Defendant Montes billed for 79  
22 patient visits. During that three hour time frame, Defendant Montes billed for  
23 seeing four separate patients every ten minutes.

24       159. Defendant Montes does not tailor care to a patient's unique medical  
25 situation and does not base the care on a review of the results of the medical tests.  
26 Instead, Defendant Montes uses boilerplate diagnoses, such as "stress, anxiety,  
27 insomnia." By using such a diagnosis, Defendants cause all patients to be seen by  
28 Defendant Terrence, further unnecessarily inflating bills to insurers.

1           160. Defendant Montes invariably causes each patient to undergo a  
2 boilerplate battery of treatments, tests, and medications. Defendant Montes  
3 prescribes these treatments without regard for necessity or effectiveness.

4           161. Defendant Montes was involved in Defendants' practice of "doctor  
5 swapping" for purposes of obtaining insurance coverage for a patient's treatment.  
6 "Doctor swapping" occurs when a doctor is treating a patient and that doctor is  
7 "out of network." The Clinics would bill an insurer, using the name of a second  
8 doctor, one who is within the insurer's network, as the doctor treating the patient.

9           162. Defendant Montes does not tailor care to a patient's unique medical  
10 situation and does not base the care on a review of the results of the medical tests.  
11 The majority of the treatments are useless. Physical therapy treatments, diagnostic  
12 tests, psychiatric evaluations, and therapeutic massages are performed by  
13 uncertified low-wage employees and provide no curative effect. The technicians  
14 who operate these machines have no understanding of how to treat specific  
15 injuries using the different settings and functions of these machines. Every patient  
16 receives treatment under the exact same setting with no regard for their specific  
17 injury, e.g., thumb or hip injury, or whether his or her pain is muscular, skeletal, or  
18 due to damaged nerves. Despite the carousel of tests and treatments, most patients  
19 never see any improvement in their chronic pain. Defendant Montes allows  
20 untrained workers to perform her professional duties, then signs off and bills  
21 insurers and the State at her full rates. Defendant Montes is part of the scheme  
22 whereby the Central Logs are used to ensure each patient receives the maximum  
23 number of billable medical services, and to direct patient care accordingly.  
24 Defendant Montes was one of several employees who received an email dated  
25 March 4, 2011 from Defendant Gharib-Danesh, warning that she does not want  
26 any patients to leave the office without a return appointment, and schedulers who  
27 fail to comply will be terminated. See Exhibit I.

1           163.   **Defendant JORGE A. RIVAS**, a chiropractor, was employed by  
2 Defendant Gharib-Danesh and practiced at the Clinics as of December 16, 2011.  
3 *See **Exhibit S***. Defendant Rivas engaged in a pattern and practice of, like those  
4 above, ordering dozens of tests, treatments, and medications for **all** patients,  
5 regardless of injury or proper medical diagnosis. Many of these procedures are  
6 never performed, and patients often never receive the medications for which the  
7 insurers pay. Each stage of the patients' care is designed to fraudulently maximize  
8 billing while providing no actual medical care or benefit. Defendant Rivas  
9 invariably causes each patient to undergo a boilerplate battery of treatments, tests,  
10 and medications. Defendant Rivas prescribes these treatments without regard for  
11 necessity or effectiveness. Defendant Rivas does not tailor care to a patient's  
12 unique medical situation and does not base the care on a review of the results of  
13 the medical tests. The majority of the treatments are useless. Physical therapy  
14 treatments, diagnostic tests, psychiatric evaluations, and therapeutic massages are  
15 performed by uncertified low-wage employees and provide no curative effect. The  
16 technicians who operate these machines have no understanding of how to treat  
17 specific injuries using the different settings and functions of these machines.  
18 Every patient receives treatment under the exact same setting with no regard for  
19 their specific injury, e.g., thumb or hip injury, or whether his or her pain is  
20 muscular, skeletal, or due to damaged nerves. Despite the carousel of tests and  
21 treatments, most patients never see any improvement in their chronic pain.  
22 Defendant Rivas allows untrained workers to perform his professional duties, then  
23 signs off and bills insurers and the State at his full rates. Defendant Rivas is part  
24 of the scheme whereby the Central Logs are used to ensure each patient receives  
25 the maximum number of billable medical services, and to direct patient care  
26 accordingly. Defendant Rivas allowed Defendant Gharib-Danesh to alter medical  
27 records in order to claim that Defendant Rivas, who was on more MPNs than other  
28 chiropractors and doctors working for the Clinics, was actually the Primary

1 Treating Physician, in order to ensure the Clinics could bill the patient's insurer.  
2 See Exhibit M.

3 164. Defendant **RODRIGO T. SANCHEZ**, a chiropractor, was  
4 employed by Defendant Gharib-Danesh and practiced at the Clinics as of  
5 December 16, 2011. See Exhibit S. Defendant Sanchez engaged in a pattern and  
6 practice of, like those above, ordering dozens of tests, treatments, and medications  
7 for **all** patients, regardless of injury or proper medical diagnosis. Many of these  
8 procedures are never performed, and patients often never receive the medications  
9 for which the insurers pay.

10 165. Each stage of a patient's care is designed to fraudulently maximize  
11 billing while providing no actual medical care or benefit. For example, on  
12 November 17, 2011, from 9:00 a.m. to 6:00 p.m., Defendant Sanchez billed for 89  
13 patient visits.

14 166. Defendant Sanchez invariably causes each patient to undergo a  
15 boilerplate battery of treatments, tests, and medications. Defendant Sanchez  
16 prescribes these treatments without regard for necessity or effectiveness.  
17 Defendant Sanchez does not tailor care to a patient's unique medical situation and  
18 does not base the care on a review of the results of the medical tests. The majority  
19 of the treatments are useless. Physical therapy treatments, diagnostic tests,  
20 psychiatric evaluations, and therapeutic massages are performed by uncertified,  
21 low-wage employees, and provide no curative effect. The technicians who operate  
22 these machines have no understanding of how to treat specific injuries using the  
23 different settings and functions of these machines. Every patient receives  
24 treatment under the exact same setting with no regard for their specific injury, e.g.,  
25 thumb or hip injury, or whether his or her pain is muscular, skeletal, or due to  
26 damaged nerves. Despite the carousel of tests and treatments, most patients never  
27 see any improvement in their chronic pain. Defendant Sanchez allows untrained  
28 workers to perform his professional duties, then signs off and bills insurers and the

1 State at his full rates. Defendant Sanchez is part of the scheme whereby the  
2 Central Logs are used to ensure each patient receives the maximum number of  
3 billable medical services, and to direct patient care accordingly.

4 167. **Defendant TUSHAR RAMNIK DOSHI**, a medical doctor, is  
5 currently employed by Defendant Gharib-Danesh and practices at the Clinics. *See*  
6 **Exhibit T**. Defendant Doshi engaged in a pattern and practice of, like those  
7 above, ordering dozens of tests, treatments, and medications for **all** patients,  
8 regardless of injury or proper medical diagnosis. Many of these procedures are  
9 never performed, and patients often never receive the medications for which the  
10 insurers pay. Each stage of a patient's care is designed to fraudulently maximize  
11 billing while providing no actual medical care or benefit.

12 168. Defendant Doshi invariably causes each patient to undergo a  
13 boilerplate battery of treatments, tests, and medications. In fact, Defendant Doshi  
14 is a prime example of what happens at many of the Clinics. It is the date the  
15 patient is seen, not the patient's individual symptoms, that dictates what drugs the  
16 patient is prescribed. For example, at the Reseda Office, on March 29, 2010, all  
17 fifteen patients received prescriptions for two Capsnicin, Flurbiprofen-D2. *See*  
18 **Exhibit W**. Defendant Doshi prescribes these treatments without regard for  
19 necessity or effectiveness. Defendant Doshi does not tailor care to a patient's  
20 unique medical situation and does not base the care on a review of the results of  
21 the medical tests. The majority of the treatments are useless. Physical therapy  
22 treatments, diagnostic tests, psychiatric evaluations, and therapeutic massages are  
23 performed by uncertified, low-wage employees, and provide no curative effect.  
24 The technicians who operate these machines have no understanding of how to  
25 treat specific injuries using the different settings and functions of these machines.  
26 Every patient receives treatment under the exact same setting with no regard for  
27 their specific injury, e.g., thumb or hip injury, or whether his or her pain is  
28 muscular, skeletal, or due to damaged nerves. Despite the carousel of tests and

1 treatments, most patients never see any improvement in their chronic pain.  
2 Defendant Doshi allows untrained workers to perform his professional duties, then  
3 signs off and bills insurers and the State at his full rates. Defendant Doshi is part  
4 of the scheme whereby the Central Logs are used to ensure each patient receives  
5 the maximum number of billable medical services, and to direct patient care  
6 accordingly.

7       169.     **Defendant BONIFACE OKWUDILI ONOBAH**, a medical  
8 doctor, is currently employed by Defendant Gharib-Danesh and practices at the  
9 Clinics. See **Exhibit T**. Defendant Onobah engaged in a pattern and practice of,  
10 like those above, ordering dozens of tests, treatments, and medications for **all**  
11 patients, regardless of injury or proper medical diagnosis, particularly shock wave  
12 and nerve test services. Many of these procedures are never performed, and  
13 patients often never receive the medications for which the insurers pay.

14       170.     Each stage of the patients' care is designed to fraudulently maximize  
15 billing while providing no actual medical care or benefit. On September 23, 2011,  
16 Defendant Onobah saw nine patients in the Oxnard Office. All nine patients  
17 received prescriptions for Capsaicin, Cyc/Keto/Lido LDS, and DEXTRO. In  
18 addition, on the same date, Defendant Onobah saw thirteen patients in the Reseda  
19 Office. All thirteen patients received prescriptions for the same drugs: Capsaicin,  
20 Cyc/Keto/Lido LDS, and DEXTRO.

21       171.     On September 29, 2011, Defendant Onobah saw twenty-three  
22 patients in the Bakersfield Office. All twenty-three patients received prescriptions  
23 for Capsaicin, Amitriptyline, and Flurbiprofen.

24       172.     Defendant Onobah invariably causes each patient to undergo a  
25 boilerplate battery of treatments, tests, and medications, particularly shock wave  
26 and nerve test services. Defendant Onobah prescribes these treatments without  
27 regard for necessity or effectiveness. Defendant Onobah does not tailor care to a  
28 patient's unique medical situation and does not base the care on a review of the

1 results of the medical tests. Physical therapy treatments, diagnostic tests,  
2 psychiatric evaluations, and therapeutic massages are performed by uncertified,  
3 low-wage employees, and provide no curative effect. The technicians who operate  
4 these machines have no understanding of how to treat specific injuries using the  
5 different settings and functions of these machines. Every patient receives  
6 treatment under the exact same setting with no regard for their specific injury, e.g.,  
7 thumb or hip injury, or whether his or her pain is muscular, skeletal, or due to  
8 damaged nerves. Despite the carousel of tests and treatments, most patients never  
9 see any improvement in their chronic pain. Defendant Onobah allows untrained  
10 workers to perform his professional duties, then signs off and bills insurers and the  
11 State at his full rates. Defendant Onobah is part of the scheme whereby the  
12 Central Logs are used to ensure each patient receives the maximum number of  
13 billable medical services, and to direct patient care accordingly. *Qui Tam* Plaintiff  
14 witnessed Defendant Onobah visit to the Reseda Clinic on multiple occasions to  
15 pick up a check from Defendant Gharib-Danesh and then leave immediately. *Qui*  
16 *Tam* Plaintiff never witnessed Defendant Onobah visit the Reseda Clinic for long  
17 enough to see or treat any patients.

18 173. **Defendant WILLIAM BERNARD SIMPSON**, a medical doctor, is  
19 currently employed by Defendant Gharib-Danesh and practices at the Clinics. *See*  
20 **Exhibit T**. Defendant Simpson engaged in a pattern and practice of, like those  
21 above, ordering dozens of tests, treatments, and medications for **all** patients,  
22 regardless of injury or proper medical diagnosis. Many of these procedures are  
23 never performed, and patients often never receive the medications for which the  
24 insurers pay. Each stage of the patients' care is designed to fraudulently maximize  
25 billing while providing no actual medical care or benefit. Defendant Simpson  
26 invariably causes each patient to undergo a boilerplate battery of treatments, tests,  
27 and medications. Defendant Simpson prescribes these treatments without regard  
28 for necessity or effectiveness., often without ever having seen the patient. For

1 example, on October 7, 2011, Defendant Simpson signed at least four prescription  
2 forms *in blank*, allowing unlicensed workers to later enter the specific medication  
3 and dosage. See Exhibit X.

4 174. Defendant Simpson does not tailor care to a patient's unique medical  
5 situation and does not base the care on a review of the results of the medical tests.  
6 The majority of the treatments are useless. Physical therapy treatments, diagnostic  
7 tests, psychiatric evaluations, and therapeutic massages are performed by  
8 uncertified, low-wage employees, and provide no curative effect. The technicians  
9 who operate these machines have no understanding of how to treat specific  
10 injuries using the different settings and functions of these machines. Every patient  
11 receives treatment under the exact same setting with no regard for their specific  
12 injury, e.g., thumb or hip injury, or whether his or her pain is muscular, skeletal, or  
13 due to damaged nerves. Despite the carousel of tests and treatments, most patients  
14 never see any improvement in their chronic pain. Defendant Simpson allows  
15 untrained workers to perform his professional duties, then signs off and bills  
16 insurers and the State at his full rates. Defendant Simpson is part of the scheme  
17 whereby the Central Logs are used to ensure each patient receives the maximum  
18 number of billable medical services, and to direct patient care accordingly. Dr.  
19 Simpson is responsible for the shockwave therapy treatments at the Clinics, but  
20 does not actually perform the treatments himself. Instead, he relies on low-wage  
21 workers to perform the tests for him. Those workers then bring him the reports to  
22 sign. He also instructs those workers to forge his name on reports when he is not  
23 seeing patients at the Clinics. Dr. Simpson ordered shockwave therapy for over  
24 twenty patients a day — even though he did not examine the patients beforehand  
25 — and ordered four rounds of therapy for every patient. **These treatments, given**  
26 **by low-wage workers, were ineffective, lasting from two to five minutes.** The  
27 purpose of these treatments was to maximize the amount billed to insurers, not  
28 cure the patients.

1           175. **Defendant BEHNOUSH ZARRINI**, a medical doctor, was  
2 employed by Defendant Gharib-Danesh and practiced at the Clinics, as of  
3 December 16, 2011. See **Exhibit S**. Defendant Zarrini engaged in a pattern and  
4 practice of, like those above, ordering dozens of tests, treatments, and medications  
5 for **all** patients, regardless of injury or proper medical diagnosis. Many of these  
6 procedures are never performed, and patients often never receive the medications  
7 for which the insurers pay. Each stage of the patients' care is designed to  
8 fraudulently maximize billing while providing no actual medical care or benefit.

9           176. Defendant Zarrini invariably causes each patient to undergo a  
10 boilerplate battery of treatments, tests, and medications. Defendant Zarrini  
11 prescribes these treatments without regard for necessity or effectiveness.  
12 Defendant Zarrini does not tailor care to a patient's unique medical situation and  
13 does not base the care on a review of the results of the medical tests. All patients  
14 receive identical prescription refills, irrespective of the individual symptoms,  
15 based on the day the patient was seen. For example, on December 1, 2010, all  
16 patients who visited Defendant Zarrini at the Long Beach Office received 3 refills  
17 for all drugs prescribed that day. See **Exhibit Y**. On December 2, 2010, all  
18 patients who visited Defendant Zarrini at the Oxnard Office received 3 refills for  
19 all drugs prescribed that day and all patients who visited Defendant Zarrini at the  
20 Los Angeles Office received 1 refill for all drugs prescribed that day.

21           177. Physical therapy treatments, diagnostic tests, psychiatric evaluations,  
22 and therapeutic massages are performed by uncertified, low-wage employees, and  
23 provide no curative effect. The technicians who operate these machines have no  
24 understanding of how to treat specific injuries using the different settings and  
25 functions of these machines. Every patient receives treatment under the exact  
26 same setting with no regard for their specific injury, e.g., thumb or hip injury, or  
27 whether his or her pain is muscular, skeletal, or due to damaged nerves. Despite  
28 the carousel of tests and treatments, most patients never see any improvement in

1 their chronic pain. Defendant Zarrini allows untrained workers to perform his  
2 professional duties, then signs off and bills insurers and the State at his full rates.  
3 Defendant Zarrini is part of the scheme whereby the Central Logs are used to  
4 ensure each patient receives the maximum number of billable medical services,  
5 and to direct patient care accordingly. Defendant Zarrini is primarily responsible  
6 for the prescription drug prong of the scheme operating out of the Clinics. **Under**  
7 **the scheme, Defendant Zarrini writes prescriptions for patients he has not**  
8 **examined and allows office clerks to use his signature and credentials to**  
9 **prescribe medications in his absence.** Under the scheme, Defendant Zarrini also  
10 orders medical tests and treatments for patients without regard to their individual  
11 medical needs and allows untrained office workers and medical assistants to  
12 perform these tests and treatments without supervision.

13 178. Defendant **John T. Terrence PsyD, PhD** operates the psychological  
14 evaluation arm of the fraudulent billing scheme. Terrence performs sham  
15 psychiatric evaluations on as many patients as possible, and bills insurers for as  
16 many as **20 hours** in a day for services per patient, without exception. Terrence  
17 also bills insurers for patients he does not actually evaluate. When submitting  
18 bills to insurers, Terrence bills as if he sees up to a dozen patients per day. For  
19 each of these patients, Terrence submits that he has provided **each patient** with  
20 over twenty hours of psychological evaluations. In a period of two weeks,  
21 Terrence has billed in excess of **1,000 hours for services.** See **Exhibit B.**  
22 Defendant Terrence knowingly and unlawfully: (a) ordered unnecessary  
23 psychiatric evaluations; (b) fraudulently billed insurers in excess of the services  
24 actually rendered; and (c) fraudulently billed insurers for evaluations that he did  
25 not perform.

1           C.     **Defendant Clinics and Other Billing Entities**

2           179.   **Defendant Danesh Chiropractic** participated in the unlawful  
3 scheme to defraud insurers by billing dozens of tests, treatments, and medications  
4 for **all** patients, regardless of injury or proper medical diagnosis. Many of these  
5 procedures were never performed, and patients often never received the  
6 medications for which the insurers pay. Defendant Danesh Chiropractic has no  
7 purpose other than to divert some of Defendants' fraudulent bills through more  
8 diverse channels to avoid drawing attention to the immense volume of bills  
9 generated by Defendants. **This entity knowingly submits false bills to insurers.**

10          180.   **Defendant Pain Free Management** participated in the unlawful  
11 scheme to defraud insurers by billing dozens of tests, treatments, and medications  
12 for **all** patients, regardless of injury or proper medical diagnosis. Many of these  
13 procedures were never performed, and patients often never received the  
14 medications for which the insurers pay. As an example, on December 14, 2010,  
15 Defendant Pain Free Management billed for four separate Beck Depression  
16 Inventories, three Sentence Completion Tests, and two Assessments of Aphasia,  
17 all supposedly performed on the same patient on the same day. See Exhibit U.  
18 Defendant Pain Free Management has no purpose other than to divert some of  
19 Defendants' fraudulent bills through more diverse channels to avoid drawing  
20 attention to the immense volume of bills generated by Defendants. **This entity**  
21 **knowingly submits false bills to insurers.**

22          181.   **Defendant PRHC** participated in the unlawful scheme to defraud  
23 insurers by billing dozens of tests, treatments, and medications for **all** patients,  
24 regardless of injury or proper medical diagnosis. Many of these procedures were  
25 never performed, and patients often never received the medications for which the  
26 insurers pay. Defendant PRHC has no purpose other than to divert some of  
27 Defendants' fraudulent bills through more diverse channels to avoid drawing  
28

1 attention to the immense volume of bills generated by Defendants. **This entity**  
2 **knowingly submits false bills to insurers.**

3 182. **Defendant PFD** participated in the scheme to defraud insurers by  
4 billing dozens of tests, treatments, and medications for **all** patients, regardless of  
5 injury or proper medical diagnosis. Many of these procedures were not performed,  
6 and patients did not receive the medications for which the insurers pay. Defendant  
7 PFD has no purpose other than to divert some of Defendants' fraudulent bills  
8 through more diverse channels to avoid drawing attention to the immense volume  
9 of bills generated by Defendants. **This entity knowingly submits false bills to**  
10 **insurers.**

11 183. **Defendant CA Orthopedic** participated in the unlawful scheme to  
12 defraud insurers by billing dozens of tests, treatments, and medications for **all**  
13 patients, regardless of injury or proper medical diagnosis. Many of these  
14 procedures were never performed, and patients often never received the  
15 medications for which the insurers pay. Defendant CA Orthopedic has no purpose  
16 other than to divert some of Defendants' fraudulent bills through more diverse  
17 channels to avoid drawing attention to the immense volume of bills generated by  
18 Defendants. **This entity knowingly submits false bills to insurers.**

19 184. **Defendant Southern CA Pain** participated in the unlawful scheme  
20 to defraud insurers by billing dozens of tests, treatments, and medications for **all**  
21 patients, regardless of injury or proper medical diagnosis. Many of these  
22 procedures were never performed, and patients often never received the  
23 medications for which the insurers pay. Defendant Southern CA Pain has no  
24 purpose other than to divert some of Defendants' fraudulent bills through more  
25 diverse channels to avoid drawing attention to the immense volume of bills  
26 generated by Defendants. **This entity knowingly submits false bills to insurers.**

27 185. **Defendant Mindwaves** participated in the unlawful scheme to  
28 defraud insurers by billing dozens of tests, treatments, and medications for **all**

1 patients, regardless of injury or proper medical diagnosis. Many of these  
2 procedures were never performed, and patients often never received the  
3 medications for which the insurers pay. Defendant Mindwaves has no purpose  
4 other than to divert some of Defendants' fraudulent bills through more diverse  
5 channels to avoid drawing attention to the immense volume of bills generated by  
6 Defendants. **This entity knowingly submits false bills to insurers.** Defendant  
7 Mindwaves is owned and controlled by Defendant John Terrence, PsyD.

8       186. **Defendant Sanchez Chiropractic** participated in the unlawful  
9 scheme to defraud insurers by billing dozens of tests, treatments, and medications  
10 for **all** patients, regardless of injury or proper medical diagnosis. Many of these  
11 procedures were never performed, and patients often never received the  
12 medications for which the insurers pay. Defendant Sanchez Chiropractic has no  
13 purpose other than to divert some of Defendants' fraudulent bills through more  
14 diverse channels to avoid drawing attention to the immense volume of bills  
15 generated by Defendants. **This entity knowingly submits false bills to insurers.**

16       187. **Defendant United Health** participated in the unlawful scheme to  
17 defraud insurers by billing dozens of tests, treatments, and medications for **all**  
18 patients, regardless of injury or proper medical diagnosis. Many of these  
19 procedures were never performed, and patients often never received the  
20 medications for which the insurers pay. Defendant United Health has no purpose  
21 other than to divert some of Defendants' fraudulent bills through more diverse  
22 channels to avoid drawing attention to the immense volume of bills generated by  
23 Defendants. **This entity knowingly submits false bills to insurers.**

24       188. **Defendant Omnipysch** participated in the unlawful scheme to  
25 defraud insurers by billing dozens of tests, treatments, and medications for **all**  
26 patients, regardless of injury or proper medical diagnosis. Many of these  
27 procedures were never performed, and patients often never received the  
28 medications for which the insurers pay. Defendant Omnipysch has no purpose

1 other than to divert some of Defendants' fraudulent bills through more diverse  
2 channels to avoid drawing attention to the immense volume of bills generated by  
3 Defendants. **This entity knowingly submits false bills to insurers.**

4 189. **Defendant SoCal Industrial** participated in the unlawful scheme to  
5 defraud insurers by billing dozens of tests, treatments, and medications for **all**  
6 patients, regardless of injury or proper medical diagnosis. Many of these  
7 procedures were never performed, and patients often never received the  
8 medications for which the insurers pay. Defendant SoCal Industrial has no  
9 purpose other than to divert some of Defendants' fraudulent bills through more  
10 diverse channels to avoid drawing attention to the immense volume of bills  
11 generated by Defendants. **This entity knowingly submits false bills to insurers.**

12 190. **Defendant Encino Care Pharmacy** participated in the unlawful  
13 scheme to defraud insurers by billing dozens of tests, treatments, and medications  
14 for **all** patients, regardless of injury or proper medical diagnosis. Many of these  
15 procedures were never performed, and patients often never received the  
16 medications for which the insurers pay. Defendant Encino Care Pharmacy has no  
17 purpose other than to divert some of Defendants' fraudulent bills through more  
18 diverse channels to avoid drawing attention to the immense volume of bills  
19 generated by Defendants. **This entity knowingly submits false bills to insurers.**

20 **VI. THE STATUTORY SCHEMES BEHIND DEFENDANTS'**  
21 **CONSPIRACY**

22 **A. Repeated Acts of Excessive Medical Treatments, Diagnostic**  
23 **Tests, and Drug Prescriptions**

24 191. California law prohibits medical professionals from "[r]epeated acts  
25 of clearly excessive prescribing, furnishing, dispensing, or administering of drugs  
26 or treatment, repeated acts of clearly excessive use of diagnostic procedures, or  
27 repeated acts of clearly excessive use of diagnostic or treatment facilities." Bus. &  
28 Prof. Code § 725.

1 192. California law also prohibits the prescription of dangerous medical  
2 drugs "without an appropriate prior examination and a medical indication." Bus.  
3 & Prof. Code § 2242.

4 193. The AMA Code of Medical Ethics further states "[t]reatments which  
5 have no medical indication and offer no possible benefit to the patient should not  
6 be used." See AMA Code of Medical Ethics, Opinion 8.20.

7 **B. The Use of Runners, Cappers, Steerers, or Other Persons to**  
8 **Procure Patients**

9 194. The Clinics' means of procuring patients are specifically prohibited  
10 by law. Under California Insurance Code § 1871.7(a), it is "unlawful to knowingly  
11 employ runners, cappers, steerers or other persons to procure clients or patients to  
12 perform or obtain services or benefits pursuant to [the California Workers  
13 Compensation System] or to procure clients or patients to perform or obtain  
14 services or benefits under a contract of insurance or that will be the basis of a  
15 claim against an insured individual or his or her insurer."

16 195. Any person or entity that violates § 1871.7(a) is subject to a civil  
17 penalty of up to \$10,000 for each claim submitted to an insurer for payment. The  
18 person or entity is also subject to treble damages for the amount of the claim for  
19 compensation billed to the insurer. The Court may also grant equitable relief to  
20 protect the public. See Ins. Code § 1871.7(b).

21 **C. Payment of Kickbacks to Attorneys for Referring Patients**

22 196. The Clinics' payments to attorneys for referring patients is  
23 specifically prohibited by law. California Business & Professions Code §§ 650,  
24 1003, and 2273 prohibits doctors and chiropractors from paying kickbacks for the  
25 referral of patients to their clinics.

26 197. California Labor Code § 3215 similarly prohibits persons from  
27 receiving kickbacks for referring patients or engaging in other acts, such as  
28 performing surgeries at particular hospitals or choosing particular medical implant

1 hardware in the workers' compensation context. *See also* Lab. Code § 3820. Ins.  
2 Code § 754 makes the same conduct generally unlawful when billed to any private  
3 insurer.

4 198. The Code of Medical Ethics of the American Medical Association  
5 ("AMA") strictly prohibits doctors from paying for referrals, making it clear that,  
6 "[p]ayment by or to a physician solely for the referral of a patient is fee splitting  
7 and is unethical." *See* AMA Code of Medical Ethics, Opinion 6.02.

8 **D. Dishonest and Incompetent Practice**

9 199. It is unlawful for medical personnel to engage in dishonest or  
10 incompetent practice. Bus. & Prof. Code § 2234(d-e).

11 **E. Repeated Acts of Falsifying and Altering Medical Records**

12 200. The clinics engaged in a pattern and practice of falsifying and  
13 offering medical records to inflate false billing to insurers. "Altering or modifying  
14 the medical record of any person, with fraudulent intent, or creating any false  
15 medical record, with fraudulent intent, constitutes unprofessional conduct." Bus.  
16 & Prof. Code § 2262.

17 201. Additionally, under California law, "[k]nowingly making or signing  
18 any certificate or other document directly or indirectly related to the practice of  
19 medicine or podiatry which falsely represents the existence or nonexistence of a  
20 state of facts, constitutes unprofessional conduct." Bus. & Prof. Code § 2261.

21 **F. Employment of Unlicensed Employees to Perform Medical**  
22 **Procedures**

23 202. The Clinics regularly employed unlicensed and inexperienced  
24 personnel to operate medical equipment and treat patients in order to generate  
25 false claims for as many patients as possible. However, the law is clear: "The  
26 employing, directly or indirectly, the aiding, or the abetting of any unlicensed  
27 person or any suspended, revoked, or unlicensed practitioner to engage in the  
28 practice of medicine or any other mode of treating the sick or afflicted which

1 requires a license to practice constitutes unprofessional conduct.” Bus. & Prof.  
2 Code § 2264.

3 **G. Dispensing Unnecessary Prescription Drugs by a Non-Physician**

4 203. Contrary to the conduct of the Clinics whose non-physician  
5 employees dispensed dangerous drugs directly to patients, California law strictly  
6 limits the practice of bypassing a pharmacy and dispensing prescription  
7 medication from a medical office. Bus. & Prof. Code § 4170. First, the  
8 medication must be “necessary in the treatment of the condition for which the  
9 prescriber is attending the patient.” Bus. & Prof. Code § 4170(a)(2). Second, the  
10 medication must be “dispensed to the prescriber’s own patient,” and cannot be  
11 dispensed by a nurse or physician attendant. Bus. & Prof. Code § 4170(a)(1).

12 204. The AMA Code of Ethics states physicians may only prescribe  
13 medication based “solely upon medical considerations and patient need and  
14 reasonable expectations of the effectiveness of the drug, device or other treatment  
15 for the particular patient.” See AMA Code of Medical Ethics, Opinion 8.06.

16 205. Further, California law prohibits physicians from forcing their  
17 patients to accept medications dispensed from the physician or the pharmacy of  
18 the physician’s choice; they must allow their patients the freedom to fill their  
19 prescriptions wherever the patient chooses. Bus. & Prof. Code § 4170(a)(6-7).  
20 The AMA Code of Ethics similarly states “physicians should respect the patient’s  
21 freedom of choice in selecting who will fill their prescriptions.” See AMA Code  
22 of Medical Ethics, Opinion 8.06.

23 **H. Operating under the Imprimatur of or Impersonating a Licensed**  
24 **Medical Doctor**

25 206. The Clinics openly and deliberately promote, report, and bill their  
26 services under the imprimatur and in the name of licensed medical doctors.  
27 However, licensed medical doctors are legitimately affiliated with only some of  
28 the Clinics. California law prohibits the impersonation of a licensed practitioner.

1 Bus. & Prof. Code § 2289. Additionally, it is unlawful to purchase the medical  
2 degree or medical certification of another practitioner. Bus. & Prof. Code § 2287

3 **I. Submitting Fraudulent Claims and Preparing Fraudulent**  
4 **Documents to Support Claims to Insurers**

5 207. At the heart of the Clinics' conduct is that Defendants, and each of  
6 them, participated in a conspiracy to defraud the insurance system by submitting  
7 false and fraudulent claims. California Penal Code § 550 makes it unlawful to  
8 "[k]nowingly make or cause to be made any false or fraudulent claim for payment  
9 of a health care benefit." California further proscribes the preparation of a false  
10 claim, or any other document used in support of a false claim. Pen. Code §  
11 550(a)(5). It is also unlawful to submit a claim for a health care benefit that was  
12 not used by, or on behalf of, the claimant. Pen. Code § 550(a)(7).

13 208. California Business & Professions Code § 810 further prohibits  
14 health care professionals from presenting a fraudulent claim to an insurer, or from  
15 preparing documents that will be submitted in support of a fraudulent claim.

16 209. The AMA Code of Ethics states physicians "should make no  
17 intentional misrepresentations to increase the level of payment they receive." *See*  
18 *AMA Code of Medical Ethics, Opinion 9.132.*

19 **J. Upcoding, Bill Inflation and Manipulating the California**  
20 **Workers' Compensation System's Official Medical Fee Schedule**

21 210. In general, the reimbursement rates for procedures performed in the  
22 California Workers' Compensation System are governed by the Official Medical  
23 Fee Schedule ("OMFS"). *See, Lab. Code § 5307.1; see also, 8 CCR §§ 9790 et*  
24 *seq.*

25 211. The OMFS was promulgated by the Administrative Director of the  
26 Division of Workers' Compensation in an attempt to rein-in spiraling medical  
27 costs. The OMFS ties provider reimbursement to a multiplier of Medicare's rates  
28 for the same service.

1           212. Defendants have unlawfully “upcoded,” inflated bills, and engaged  
2 in other acts described herein, such as billing for services never provided, that  
3 have had the purpose and effect of manipulating and circumventing the OMFS.  
4 Consequently, Defendants have submitted claims in violation of the OMFS.

5 **VII. DELAYED DISCOVERY, FRAUDULENT CONCEALMENT, AND**  
6 **CONTINUING COURSE OF CONDUCT**

7 **A. Delayed Discovery Suspended Accrual of the Action**

8           213. *Qui Tam* Plaintiff had no knowledge of the claims alleged herein, or  
9 of facts sufficient to place her on inquiry notice of the claims set forth herein, until  
10 December, 2011. *Qui Tam* Plaintiff did not discover, and could not have  
11 discovered through the exercise of reasonable diligence, the existence of this  
12 scheme until that time – December of 2011.

13           214. Because of the lack of transparency in the healthcare industry and  
14 medical billing generally, and due to the conduct of Defendants, and each of them,  
15 information was not available to *Qui Tam* Plaintiff prior to her employment with  
16 many of the Defendants. For these reasons, the statute of limitations did not begin  
17 to accrue with respect to the claims *Qui Tam* Plaintiff has alleged in this  
18 Complaint until just months before the filing of the Complaint.

19 **B. Fraudulent Concealment Tolled the Statute of Limitations**

20           215. In the alternative, application of the doctrine of fraudulent  
21 concealment tolled the statute of limitations on the claims asserted herein.

22           216. *Qui Tam* Plaintiff did not know and could not have known of the  
23 existence of the claims asserted herein until December of 2011.

24           217. Before that time, *Qui Tam* Plaintiff was unaware of Defendants’  
25 unlawful conduct. Defendants employed tactics to keep the schemes alleged  
26 herein secret. For example, in order to hide the pain management scheme,  
27 Defendants unlawfully employed “runners, cappers and steerers,” and engaged in a  
28 pattern and practice of overbilling, billing for services never rendered, ordering

1 unnecessary treatments, tests, and evaluations, billing for medical services that are  
2 only superficially provided by untrained, low-wage workers, and using  
3 unaffiliated physicians' credentials to unlawfully order prescription drugs in the  
4 area of chronic pain management. This conduct concealed the true nature of the  
5 pain management scheme and deceived persons into believing they were engaged  
6 in appropriate practices. Moreover, federal and state medical privacy laws make it  
7 difficult for the public or whistleblowers to review medical billing in depth.

8 218. Additionally, Defendants utilized the lack of transparency in the  
9 healthcare industry and medical billing generally to carry out their unlawful and  
10 fraudulent schemes. For example, the SCIF's publication, *A Treating Physician's*  
11 *Guide to Patient Care in the Workers' Compensation System*, states that "[t]he  
12 nature of the workers' compensation system combined with minimal  
13 accountability demanded of service providers to allow documenting fraud and  
14 establishing potential criminal responsibility make fraud **exceptionally difficult to**  
15 **detect and prosecute.**"

16 219. Defendants hid their unlawful conduct through the use of sham  
17 corporations, LLCs, and other complex financial arrangements. Additionally,  
18 chiropractors and doctors were sometimes paid unlawful kickbacks in cash to  
19 conceal the payments. Consequently, the doctrine of fraudulent concealment has  
20 tolled *Qui Tam* Plaintiff's claims.

21 C. **Defendants' Continuing Course of Conduct Constitutes a**  
22 **Continuing Violation of the Insurance Frauds Prevent Act and**  
**the California False Claims Act**

23 220. *Qui Tam* Plaintiff is informed and believes with respect to each  
24 individual and entity named in this Complaint, their conduct constituted a  
25 continuing pattern and course of conduct beginning as early as 2008 and continues  
26 up until the present.

27 221. This pattern and course of conduct constitutes a continuing violation  
28 of the statutes at issue in this case.

1 **VIII. CAUSES OF ACTION**

2 **FIRST CAUSE OF ACTION**

3 **(Against All Defendants)**

4 **California Insurance Frauds Prevention Act, Employment of**  
5 **Runners, Cappers, and Steerers or Other Persons to Procure Patients**

6 (Cal. Ins. Code § 1871.7(a))

7 222. *Qui Tam* Plaintiff incorporates herein by reference and realleges all  
8 of the allegations stated in this Complaint.

9 223. Pursuant to Ins. Code § 1871.7(a), it is unlawful to knowingly  
10 employ runners, cappers, steerers, or other persons to procure patients for the  
11 purpose of submitting a claim to that patient's insurance carrier.

12 224. From at least January 2010 to the present, Defendant Clinics and  
13 Gharib-Danesh have unlawfully employed Attorneys for the purpose of procuring  
14 patients to undergo treatment at the Clinics. Defendant Clinics did so in order to  
15 submit claims for payment to insurance carriers.

16 225. From at least January 2010 to the present, Attorneys, acting as the  
17 runners, cappers, steerers, or other persons, all conspired with the Defendant  
18 Clinics and Gharib-Danesh to violate Ins. Code § 1871.7(a).

19 226. Because the claims submitted to medical insurers by Defendant  
20 Clinics were procured by runners, cappers, steers, and other persons, these claims  
21 were false and fraudulent under the California Insurance Frauds Prevention Act.

22 227. This conduct was a substantial factor in causing damages as detailed  
23 herein.

25 ///

26 ///

27 ///

28 ///

1 **SECOND CAUSE OF ACTION**

2 **(Against All Defendants)**

3 **California Insurance Frauds Prevention Act, Presenting or Causing to be**  
4 **Presented False or Fraudulent Claims for the Payment of an Injury Under a**  
5 **Contract of Insurance**

6 (Cal. Ins. Code § 1871.1(b); Cal. Pen. Code § 550(a)(1))

7 228. *Qui Tam* Plaintiff incorporates herein by reference and realleges all  
8 of the allegations stated in this Complaint.

9 229. From at least January 2010 to the present, Defendants have all either  
10 knowingly presented or caused to be presented false and fraudulent claims for the  
11 payment of physical therapy treatments, diagnostic tests, psychological  
12 evaluations, prescription medications, and durable medical equipment, or aided,  
13 abetted, solicited, or conspired to present or caused to be presented such false and  
14 fraudulent claims.

15 230. The claims were fraudulent because:

- 16 a. Defendants knowingly sought, and falsely represented they  
17 were entitled to, reimbursement for physical therapy  
18 treatments, diagnostic tests, psychological evaluations,  
19 prescription medications, and durable medical equipment  
20 prescribed in gross and repeated acts of dishonesty and fraud;
- 21 b. Defendants knowingly sought, and falsely represented they  
22 were entitled to, reimbursement for physical therapy  
23 treatments, diagnostic tests, psychological evaluations,  
24 prescription medications, and durable medical equipment that  
25 were excessively prescribed and prescribed off of Medication  
26 Logs and Master Logs without appropriate prior medical  
27 examination and independent medical judgment;
- 28 c. Defendants knowingly sought, and falsely represented they  
were entitled to, reimbursement for physical therapy

1 treatments, diagnostic tests, psychological evaluations,  
2 prescription medications, and durable medical equipment  
3 ordered that were never provided to the patient;

- 4 d. Defendants knowingly sought, and falsely represented they  
5 were entitled to, reimbursement for physical therapy  
6 treatments, diagnostic tests, psychological evaluations,  
7 prescription medications, and durable medical equipment using  
8 medical records that were unlawfully altered, fraudulent, and  
9 contained false representations of fact;
- 10 e. Defendants knowingly sought, and falsely represented they  
11 were entitled to, reimbursement for physical therapy  
12 treatments, diagnostic tests, psychological evaluations,  
13 prescription medications, and durable medical equipment using  
14 medical records that were performed and prescribed by  
15 unlicensed employees;
- 16 f. Defendants knowingly sought, and falsely represented they  
17 were entitled to, reimbursement for physical therapy  
18 treatments, diagnostic tests, psychological evaluations,  
19 prescription medications, and durable medical equipment were  
20 prescribed by someone impersonating a medical practitioner, or  
21 through the use of a medical practitioner's purchased  
22 credentials;
- 23 g. Defendants knowingly sought, and falsely represented they  
24 were entitled to, reimbursement for prescription medications,  
25 that were dispensed in disregard of a patient's right to choose  
26 without providing patients with the freedom to select who fills  
27 their prescriptions; and

1 h. Defendants knowingly sought, and falsely represented, they  
2 were entitled to claims that had been "upcoded," inflated, or  
3 never provided at all. Consequently, the services identified on  
4 the claims were more costly than actually provided or  
5 performed on the patients. Defendants, therefore, unlawfully  
6 manipulated the rates permitted under the Official Medical Fee  
7 Schedule ("OMFS"), which governs the rates than may be  
8 charged for particular services in the workers' compensation  
9 system.

10 231. Defendants either directly presented such false claims for payment to  
11 insurers, or caused such false claims to be presented.

12 232. This conduct was a substantial factor in causing the damages as  
13 detailed herein.

### 14 **THIRD CAUSE OF ACTION**

15 **(Against All Defendants)**

#### 16 **California Insurance Frauds Prevention Act, Knowingly Preparing or** 17 **Making Any Writing in Support of a False or Fraudulent Claim**

18 (Cal. Ins. Code § 1871.1(b); Cal. Pen. Code § 550(a)(5))

19 233. *Qui Tam* Plaintiff incorporates herein by reference and realleges all  
20 of the allegations stated in this Complaint.

21 234. From at least January 2010 to the present, Defendants have all either  
22 knowingly prepared, made, or subscribed a writing, with the intent to present or  
23 use it, or allow it to be presented, in support of false and fraudulent claims for the  
24 payment of physical therapy treatments, diagnostic tests, psychological  
25 evaluations, prescription medications, and durable medical equipment, or aided,  
26 abetted, solicited, or conspired to prepare, make, or subscribe such a writing.  
27  
28

1           235. The writings include bills for payment presented to insurance  
2 carriers, and invoices prepared in support of such bills for payment. Such bills for  
3 payment constitute false or fraudulent claims because through those bills:

- 4           a. Defendants knowingly sought, and falsely represented they  
5           were entitled to, reimbursement for physical therapy  
6           treatments, diagnostic tests, psychological evaluations,  
7           prescription medications, and durable medical equipment  
8           prescribed in gross and repeated acts of dishonesty and fraud;  
9           b. Defendants knowingly sought, and falsely represented they  
10           were entitled to, reimbursement for physical therapy  
11           treatments, diagnostic tests, psychological evaluations,  
12           prescription medications, and durable medical equipment that  
13           were excessively prescribed and prescribed off of Medication  
14           Logs and Master Logs and without appropriate prior medical  
15           examination and independent medical judgment;  
16           c. Defendants knowingly sought, and falsely represented they  
17           were entitled to, reimbursement for physical therapy  
18           treatments, diagnostic tests, psychological evaluations,  
19           prescription medications, and durable medical equipment  
20           ordered that were never provided to the patient;  
21           d. Defendants knowingly sought, and falsely represented they  
22           were entitled to, reimbursement for physical therapy  
23           treatments, diagnostic tests, psychological evaluations,  
24           prescription medications, and durable medical equipment using  
25           medical records that were unlawfully altered, fraudulent, and  
26           contained false representations of fact;  
27           e. Defendants knowingly sought, and falsely represented they  
28           were entitled to, reimbursement for physical therapy

1 treatments, diagnostic tests, psychological evaluations,  
2 prescription medications, and durable medical equipment using  
3 medical records that were performed and prescribed by  
4 unlicensed employees;

5 f. Defendants knowingly sought, and falsely represented they  
6 were entitled to, reimbursement for physical therapy  
7 treatments, diagnostic tests, psychological evaluations,  
8 prescription medications, and durable medical equipment were  
9 prescribed by someone impersonating a medical practitioner, or  
10 through the use of a medical practitioner's purchased  
11 credentials;

12 g. Defendants knowingly sought, and falsely represented they  
13 were entitled to, reimbursement for prescription medications,  
14 that were dispensed in disregard of a patient's right to choose  
15 without providing patients with the freedom to select who fills  
16 their prescriptions; and

17 h. Defendants knowingly sought, and falsely represented, they  
18 were entitled to claims that had been "upcoded," inflated, or  
19 never provided at all. Consequently, the services identified on  
20 the claims were more costly than actually provided or  
21 performed on the patients. Defendants, therefore, unlawfully  
22 manipulated the rates permitted under the OMFS.

23 236. Defendants either directly presented such false claims for payment to  
24 insurers, or caused such false claims to be presented.

25 237. This conduct was a substantial factor in causing the damages as  
26 detailed here.

1 **FOURTH CAUSE OF ACTION**

2 **(Against All Defendants)**

3 **California Insurance Frauds Prevention Act, Knowingly Making or Causing**  
4 **to Be Made Any False or Fraudulent Claim for Payment of a Health Care**  
5 **Benefit**

6 (Cal. Ins. Code § 1871.1(b); Cal. Pen. Code § 550(a)(6))

7 238. *Qui Tam* Plaintiff incorporates herein by reference and realleges all  
8 of the allegations stated in this Complaint.

9 239. From at least January 2010 to the present, Defendants have all either  
10 knowingly presented or caused to be presented false and fraudulent claims for the  
11 payment of physical therapy treatments, diagnostic tests, psychological  
12 evaluations, prescription medications, and durable medical equipment, or aided,  
13 abetted, solicited, or conspired to present or caused to be presented such false and  
14 fraudulent claims.

15 240. The claims were fraudulent because:

- 16 a. Defendants knowingly sought, and falsely represented they  
17 were entitled to, reimbursement for physical therapy  
18 treatments, diagnostic tests, psychological evaluations,  
19 prescription medications, and durable medical equipment  
20 prescribed in gross and repeated acts of dishonesty and fraud;
- 21 b. Defendants knowingly sought, and falsely represented they  
22 were entitled to, reimbursement for physical therapy  
23 treatments, diagnostic tests, psychological evaluations,  
24 prescription medications, and durable medical equipment that  
25 were excessively prescribed and prescribed off of Medication  
26 Logs and Master Logs without appropriate prior medical  
27 examination and independent medical judgment;
- 28 c. Defendants knowingly sought, and falsely represented they  
were entitled to, reimbursement for physical therapy

1 treatments, diagnostic tests, psychological evaluations,  
2 prescription medications, and durable medical equipment  
3 ordered that were never provided to the patient;

- 4 d. Defendants knowingly sought, and falsely represented they  
5 were entitled to, reimbursement for physical therapy  
6 treatments, diagnostic tests, psychological evaluations,  
7 prescription medications, and durable medical equipment using  
8 medical records that were unlawfully altered, fraudulent, and  
9 contained false representations of fact;
- 10 e. Defendants knowingly sought, and falsely represented they  
11 were entitled to, reimbursement for physical therapy  
12 treatments, diagnostic tests, psychological evaluations,  
13 prescription medications, and durable medical equipment using  
14 medical records that were performed and prescribed by  
15 unlicensed employees;
- 16 f. Defendants knowingly sought, and falsely represented they  
17 were entitled to, reimbursement for physical therapy  
18 treatments, diagnostic tests, psychological evaluations,  
19 prescription medications, and durable medical equipment were  
20 prescribed by someone impersonating a medical practitioner, or  
21 through the use of a medical practitioner's purchased  
22 credentials;
- 23 g. Defendants knowingly sought, and falsely represented they  
24 were entitled to, reimbursement for prescription medications,  
25 that were dispensed in disregard of a patient's right to choose  
26 without providing patients with the freedom to select who fills  
27 their prescriptions; and  
28

1 h. Defendants knowingly sought, and falsely represented, they  
2 were entitled to claims that had been "upcoded," inflated, or  
3 never provided at all. Consequently, the services identified on  
4 the claims were more costly than actually provided or  
5 performed on the patients. Defendants, therefore, unlawfully  
6 manipulated the rates permitted under the OMFS.

7 241. Defendants either directly presented such false claims for payment to  
8 insurers, or caused such false claims to be presented.

9 242. This conduct was a substantial factor in causing the damages as  
10 detailed herein.

### 11 **FIFTH CAUSE OF ACTION**

12 **(Against All Defendants)**

13 **California Insurance Frauds Prevention Act, Soliciting, Accepting, and**  
14 **Referring Business to or from an Individual or Entity That Intends to Violate**  
**Section 550 of the Penal Code or Section 1871.4 of the Insurance Code**

15 (Cal. Ins. Code § 1871.1(b); Cal. Pen. Code § 549)

16 243. *Qui Tam* Plaintiff incorporates herein by reference and realleges all  
17 of the allegations stated in this Complaint.

18 244. From at least January 2010 to the present, Defendants have all  
19 solicited, accepted, or referred business to or from an entity or individual that  
20 intends to violate Section 550 of the Penal Code or Section 1871.4 of the  
21 Insurance Code.

22 245. The claims were fraudulent because:

23 a. Defendants knowingly sought, and falsely represented they  
24 were entitled to, reimbursement for physical therapy  
25 treatments, diagnostic tests, psychological evaluations,  
26 prescription medications, and durable medical equipment  
27 prescribed in gross and repeated acts of dishonesty and fraud;

- 1 b. Defendants knowingly sought, and falsely represented they  
2 were entitled to, reimbursement for physical therapy  
3 treatments, diagnostic tests, psychological evaluations,  
4 prescription medications, and durable medical equipment were  
5 excessively prescribed and prescribed off of Medication Logs  
6 and Master Logs and without appropriate prior medical  
7 examination and independent medical judgment;  
8 c. Defendants knowingly sought, and falsely represented they  
9 were entitled to, reimbursement for physical therapy  
10 treatments, diagnostic tests, psychological evaluations,  
11 prescription medications, and durable medical equipment  
12 ordered that were never provided to the patient;  
13 d. Defendants knowingly sought, and falsely represented they  
14 were entitled to, reimbursement for physical therapy  
15 treatments, diagnostic tests, psychological evaluations,  
16 prescription medications, and durable medical equipment using  
17 medical records that were unlawfully altered, fraudulent, and  
18 contained false representations of fact;  
19 e. Defendants knowingly sought, and falsely represented they  
20 were entitled to, reimbursement for physical therapy  
21 treatments, diagnostic tests, psychological evaluations,  
22 prescription medications, and durable medical equipment using  
23 medical records that were performed and prescribed by  
24 unlicensed employees;  
25 f. Defendants knowingly sought, and falsely represented they  
26 were entitled to, reimbursement for physical therapy  
27 treatments, diagnostic tests, psychological evaluations,  
28 prescription medications, and durable medical equipment that

1 were prescribed by someone impersonating a medical  
2 practitioner, or through the use of a medical practitioner's  
3 purchased credentials;

4 g. Defendants knowingly sought, and falsely represented they  
5 were entitled to, reimbursement for prescription medications,  
6 that were dispensed in disregard of a patient's right to choose  
7 without providing patients with the freedom to select who fills  
8 their prescriptions; and

9 h. Defendants knowingly sought, and falsely represented, they  
10 were entitled to claims that had been "upcoded," inflated, or  
11 never provided at all. Consequently, the services identified on  
12 the claims were more costly than actually provided or  
13 performed on the patients. Defendants, therefore, unlawfully  
14 manipulated the rates permitted under the OMFS.

15 246. Defendants either directly presented such false claims for payment to  
16 insurers, or caused such false claims to be presented.

17 247. This conduct was a substantial factor in causing the damages as  
18 detailed herein.

## 19 **SIXTH CAUSE OF ACTION**

20 **(Against All Defendants)**

### 21 **California False Claims Act for Presentation or Cause of Presentation of 22 False Claims to Medi-Cal**

23 (Cal. Gov. Code § 12651(a)(1))

24 248. *Qui Tam* Plaintiff incorporates herein by reference and realleges all  
25 of the allegations stated in this Complaint.

26 249. By the conduct described above, from at least January 2010 to the  
27 present, Defendants have knowingly presented, or caused to be presented, false  
28 and fraudulent claims for payment or approval from California's Medi-Cal system.

1           250. The claims were fraudulent because:

- 2           a. Defendants knowingly sought, and falsely represented that they
- 3           were entitled to, reimbursement for physical therapy
- 4           treatments, diagnostic tests, psychological evaluations,
- 5           prescription medications, and durable medical equipment that
- 6           were excessively prescribed and prescribed off of Medication
- 7           Logs and Master Logs and without appropriate prior medical
- 8           examination and independent medical judgment.
- 9           b. Defendants knowingly sought, and falsely represented that they
- 10           were entitled to, reimbursement for physical therapy
- 11           treatments, diagnostic tests, psychological evaluations,
- 12           prescription medications, and durable medical equipment
- 13           ordered that were never provided to the patient;
- 14           c. Defendants knowingly sought, and falsely represented that they
- 15           were entitled to, reimbursement for physical therapy
- 16           treatments, diagnostic tests, psychological evaluations,
- 17           prescription medications, and durable medical equipment using
- 18           medical records that were unlawfully altered, fraudulent, and
- 19           contained false representations of fact;
- 20           d. Defendants knowingly sought, and falsely represented that they
- 21           were entitled to, reimbursement for physical therapy
- 22           treatments, diagnostic tests, psychological evaluations,
- 23           prescription medications, and durable medical equipment using
- 24           medical records that were performed and prescribed by
- 25           unlicensed employees;
- 26           e. Defendants knowingly sought, and falsely represented that they
- 27           were entitled to, reimbursement for physical therapy
- 28           treatments, diagnostic tests, psychological evaluations,

1 prescription medications, and durable medical equipment that  
2 were prescribed by someone impersonating a medical  
3 practitioner, or through the use of a medical practitioner's  
4 purchased credentials; and

- 5 f. Defendants knowingly sought, and falsely represented that they  
6 were entitled to, reimbursement for prescription medications,  
7 that were dispensed without providing patients with the  
8 freedom to select who fills their prescriptions.

9 251. Defendants either directly presented such false claims for payment to  
10 insurers, or caused such false claims to be presented.

11 252. This conduct was a substantial factor in causing the damages as  
12 detailed herein.

### 13 **SEVENTH CAUSE OF ACTION**

14 **(Against All Defendants)**

15 **California False Claims Act for Making, Using, or Causing to be Made or**  
16 **Used, a False Record or Statement Material to a False or Fraudulent Claim**  
17 **to Medi-Cal**

18 (Cal. Gov. Code § 12651(a)(2))

19 253. *Qui Tam* Plaintiff incorporates herein by reference and realleges all  
20 of the allegations stated in this Complaint.

21 254. By the conduct described above, from at least January 2010 to the  
22 present, Defendants have knowingly presented, or caused to be presented, false  
23 and fraudulent claims for payment or approval from California's Medi-Cal system.

24 255. The claims were fraudulent because:

- 25 a. Defendants knowingly sought, and falsely represented that they  
26 were entitled to, reimbursement for physical therapy  
27 treatments, diagnostic tests, psychological evaluations,  
28 prescription medications, and durable medical equipment that  
were excessively prescribed and prescribed off of Medication

1 Logs and Master Logs and without appropriate prior medical  
2 examination and independent medical judgment.

- 3 b. Defendants knowingly sought, and falsely represented that they  
4 were entitled to, reimbursement for physical therapy  
5 treatments, diagnostic tests, psychological evaluations,  
6 prescription medications, and durable medical equipment  
7 ordered that were never provided to the patient;
- 8 c. Defendants knowingly sought, and falsely represented that they  
9 were entitled to, reimbursement for physical therapy  
10 treatments, diagnostic tests, psychological evaluations,  
11 prescription medications, and durable medical equipment using  
12 medical records that were unlawfully altered, fraudulent, and  
13 contained false representations of fact;
- 14 d. Defendants knowingly sought, and falsely represented that they  
15 were entitled to, reimbursement for physical therapy  
16 treatments, diagnostic tests, psychological evaluations,  
17 prescription medications, and durable medical equipment using  
18 medical records that were performed and prescribed by  
19 unlicensed employees;
- 20 e. Defendants knowingly sought, and falsely represented that they  
21 were entitled to, reimbursement for physical therapy  
22 treatments, diagnostic tests, psychological evaluations,  
23 prescription medications, and durable medical equipment that  
24 were prescribed by someone impersonating a medical  
25 practitioner, or through the use of a medical practitioner's  
26 purchased credentials; and
- 27 f. Defendants knowingly sought, and falsely represented that they  
28 were entitled to, reimbursement for prescription medications,

1 that were dispensed without providing patients with the  
2 freedom to select who fills their prescriptions.

3 256. Defendants either directly presented such false claims for payment to  
4 insurers, or caused such false claims to be presented.

5 257. This conduct was a substantial factor in causing the damages as  
6 detailed herein.

7 **EIGHTH CAUSE OF ACTION**

8 **(Against All Defendants)**

9 **California False Claims Act for Conspiracy to Commit False Claims**  
10 **to Medi-Cal**

11 (Cal. Gov. Code § 12651(a)(3))

12 258. *Qui Tam* Plaintiff incorporates herein by reference and realleges all  
13 of the allegations stated in this Complaint.

14 259. By the conduct described above, from at least January 2010 to the  
15 present, Defendants have knowingly presented, or caused to be presented, false  
16 and fraudulent claims for payment or approval from California's Medi-Cal system.

17 260. The claims were fraudulent because:

- 18 a. Defendants knowingly sought, and falsely represented that they  
19 were entitled to, reimbursement for physical therapy  
20 treatments, diagnostic tests, psychological evaluations,  
21 prescription medications, and durable medical equipment that  
22 were excessively prescribed and prescribed off of Medication  
23 Logs and Master Logs and without appropriate prior medical  
24 examination and independent medical judgment.
- 25 b. Defendants knowingly sought, and falsely represented that they  
26 were entitled to, reimbursement for physical therapy  
27 treatments, diagnostic tests, psychological evaluations,  
28 prescription medications, and durable medical equipment

- 1 ordered that were never provided to the patient;
- 2 c. Defendants knowingly sought, and falsely represented that they
- 3 were entitled to, reimbursement for physical therapy
- 4 treatments, diagnostic tests, psychological evaluations,
- 5 prescription medications, and durable medical equipment using
- 6 medical records that were unlawfully altered, fraudulent, and
- 7 contained false representations of fact;
- 8 d. Defendants knowingly sought, and falsely represented that they
- 9 were entitled to, reimbursement for physical therapy
- 10 treatments, diagnostic tests, psychological evaluations,
- 11 prescription medications, and durable medical equipment using
- 12 medical records that were performed and prescribed by
- 13 unlicensed employees;
- 14 e. Defendants knowingly sought, and falsely represented that they
- 15 were entitled to, reimbursement for physical therapy
- 16 treatments, diagnostic tests, psychological evaluations,
- 17 prescription medications, and durable medical equipment that
- 18 were prescribed by someone impersonating a medical
- 19 practitioner, or through the use of a medical practitioner's
- 20 purchased credentials; and
- 21 f. Defendants knowingly sought, and falsely represented that they
- 22 were entitled to, reimbursement for prescription medications,
- 23 that were dispensed without providing patients with the
- 24 freedom to select who fills their prescriptions.

25 261. Defendants either directly presented such false claims for payment to

26 insurers, or caused such false claims to be presented.

27 262. This conduct was a substantial factor in causing the damages as

28 detailed herein.

1 **IX. PRAYER FOR RELIEF**

2 WHEREFORE, Plaintiff, by and through *Qui Tam* Plaintiff, prays for  
3 judgment in its favor and against Defendants, and each of them, as follows:

4 **Pursuant to the California Insurance Frauds Prevention Act:**

5 **TO THE PEOPLE OF CALIFORNIA AND *QUI TAM* PLAINTIFF:**

- 6 1. For civil penalties of \$10,000 to be imposed for each and every false  
7 and fraudulent claim for payment submitted, presented, or caused to be submitted  
8 or presented to an insurance company;
- 9 2. For an assessment of three-times the amount of each claim for  
10 compensation made by Defendants;
- 11 3. For an injunction mandating Defendants be prohibited from:
- 12 (a) employing, or acting as runners, cappers, steerers, or other  
13 persons for the purpose of procuring patients;
- 14 (b) paying illegal kickbacks to chiropractors, doctors, lawyers, and  
15 other persons for referring patients to Defendants;
- 16 (c) inflating the cost of treatments, tests, and medications above  
17 that which is allowable under California law; and
- 18 (e) performing non-medically necessary treatments and tests, and  
19 prescribing non-medically necessary medications.
- 20 4. For pre and post-judgment interest;
- 21 5. For reasonable attorneys' fees, costs, and expenses incurred in  
22 bringing this case;
- 23 6. For an award of such other and further relief as this Court deems just  
24 and proper; and
- 25 7. That the *Qui Tam* Plaintiff be awarded the maximum percentage of  
26 any recovery allowed to her pursuant to Cal. Ins. Code § 1871.7.
- 27
- 28

1 Pursuant to the California False Claims Act:

2 **TO THE PEOPLE OF CALIFORNIA AND *QUI TAM* PLAINTIFF:**

3 1. For civil penalties of \$10,000 to be imposed for each and every false  
4 and fraudulent claim for payment submitted, presented or caused to be submitted  
5 or presented to Medi-Cal for payment;

6 2. For treble damages resulting to the Medi-Cal system from the  
7 conduct of Defendants, and each of them;

8 3. For pre and post-judgment interest;

9 4. For reasonable attorneys' fees, costs, and expenses incurred in  
10 bringing this case; and

11 5. That *Qui Tam* Plaintiff be awarded the maximum percentage of any  
12 recovery allowed to her pursuant to the California False Claims Act.
